No. 1628.

DEPARTMENT OF LAW.

Pittsburgh, Pa., Sept. 1, 1914.

To the Council.

Council Chamber.

Gentlemen:—

On Bill No. 1549, An Ordinance providing against forestalling and regrating and conveniently designated as the "Chicago Ordinance," being an exact copy of the ordinance adopted by that city, I beg to report as follows:

The powers of this city over markets, as defined and limited in the Charter Act of 1901, are practically a re-enact-

ment of those conferred by the original incorporation Act of 1816 and by subsequent legislation. They are specified in Article XIX, Section XXVII, as follows:

"To purchase and own grounds for, and to erect and establish, market houses and market places, for which latter purpose parts of any streets or sidewalks may be temporarily used, and to provide and enforce suitable general market regulations. * * *

This delegation limits the right of the city to locate market places, to erect market houses and to control and regulate the same by reasonable rules and provisions. Under these powers, the city has regulated everything pertaining to market places and houses, except the price of commodities sold therein, which cannot be fixed or regulated. There is an ordinance, passed December 8, 1876, relating to forestalling, and there is a provision in every market lease making the same revocable by the Mayor upon proper proof that the lessee has entered into a combination to raise the price of market products or stifle competition. The present ordinance goes beyond the powers conferred on or invested in the city, which are confined to the establishment, control and regulation of market places, and seeks to penalize certain acts not necessarily connected with such places or committed therein. The term "market," as employed in this bill, is of much broader scope than "market place" or "market house," and its provisions are apparently aimed at acts or schemes not necessarily perpetrated within the city limits. The effect of these provisions is so radical and sweeping, involving the rights of contract and private property under our constitution, as to far exceed the authority delegated to the city and to invade the proper domain of the Legislature. I am not advised whether this measure has ever been tested in the courts of Illinois, but I am convinced, after a careful consideration of the same, in view of our legislation, it would not be sustained in our Pennsylvania courts. I suggest, further, that it is so framed and phrased, so hedged about with intents and purposes, that if valid as within the powers of Council to enact, the possibility of any conviction under its terms would be very remote indeed.

Respectfully yours,
CHARLES A. O'BRIEN,
City Solicitor.

Which was read and referred to the Committee on Finance.

Mr. Rauh presented the following and requested that it be printed in full in the record:

CITY OF CHICAGO.
LAW DEPARTMENT.
Chicago, August 28, 1914.

Hon. E. J. Martin,
City Clerk,
Pittsburgh, Pennsylvania.

Dear Sir:—

Your letter of recent date, addressed to the City Clerk of Chicago, was re-

ferred to the Law Department for consideration and reply.

The ordinance designed to prevent and punish forestalling and regrating was prepared by the writer at the request of the chairman of the Municipal Markets Commission. This is not a regular committee of the City Council, but several of its members are aldermen. The ordinance did not receive consideration from any Council committee, but after it was recommended by the Municipal Markets Commission it was introduced in the Council by the chairman of this commission, Alderman Lawley, and passed by the Council without reference to a committee. The ordinance goes as far in controlling and regulating the handling of foodstuffs and the prevention of scarcity of same as it was possible to go under the limited powers of the municipality. It had to be drafted with reference not only to the limitation on the city's power, but also with reference to the state law on trusts and monopolies, which covers the feature of combinations and probably includes the most important part of the regulation on the subject. In other words, this ordinance is designed to fill in where the state law seems to be incomplete.

There are three principle provisions—one designed to prevent and punish the purchase of goods for purposes of creating a scarcity before the same are placed on the market, the next to prevent and punish the purchase of goods after they have been placed on the market for purposes of creating a scarcity, and, finally, to prevent the placing in storage by parties who own them of foodstuffs with the intention of creating an artificial scarcity and an enhanced price.

We forward herewith a copy of the ordinance.

Yours respectfully,
LEON HORNSTEIN,
Assistant Corporation Counsel.

Approved:
JOHN W. BECKWITH,
Acting Corporation Counsel.

Mr. Kerr arose and said:

"Mr. Chairman, I am going to vote for the suspension of the rules, but I reserve

the right to vote against the passage of the ordinance."

So the motion prevailed.

And the bill was read a second time.

Mr. English arose and said:

"Mr. Chairman and Gentlemen—The wording of the preamble of this ordinance itself should be sufficient reason for Council to proceed carefully before passing the ordinance. The preamble says that 'certain questions have arisen and certain litigation is now pending respecting the rights of the Postal Telegraph Cable Company to lay and maintain its underground cables and conduits in certain streets of the City of Pittsburgh.' Would it not be better for the city and company to wait a little and see the result of the litigation. This ordinance was passed by the previous Council, but Mayor Magee vetoed it on June 28, 1912, and the Council by unanimous vote sustained the veto on July 2, 1912. The Postal Telegraph Cable Company had succeeded in having Council pass a perpetual franchise, but the protest and veto of Mayor Magee has had some restraining influence, for the perpetual grant has been changed and the present ordinance calls for a 20-year term.

"My thought is that the Council could get some compensation for this valuable franchise if the company was told that we would not pass any ordinance unless some compensation was given to the city. I am not opposed to the Postal Telegraph Cable Company, but I do feel that my sworn duty is to protect the people of Pittsburgh. Right now this proposed tube seems to be a small matter, but none of us can tell what it might amount to in the future, hence it is our duty to be fair to the city and fair to the company, and in giving this franchise the city should fix it so that the city would always be in position to collect adequate compensation. If this is a good thing and profitable the city is entitled to compensation for the use of its streets. If it does not become a big profitable business, then we would not expect much revenue.

"Permit me to remind you that when the Duquesne Traction Company was given a franchise on Forbes street we had some competition with the Fifth Avenue Company. In fact, we had 3-cent fares for a while, but only for a very short time, as the two lines were consolidated, and now we are at the mercy of the combination, known as the Pittsburgh Railways Company. After all the discussion, and agitation about the terms of franchises, I warn the Council that it is a dangerous practice to grant any franchise such as this, and I am therefore compelled to vote 'No' on this ordinance."

Mr. Garland arose and said:

"Mr. Chairman and Gentlemen—The gentleman (Mr. English) does not say whether there are any particular changes between the ordinance now before us and the one which was before Council

in 1912. I doubt whether he knows. But the point I want to make, Mr. Chairman, is that there is no resemblance between this ordinance and the former one. It has been said that there is litigation pending between this company and the city. That may be true, but that has nothing to do with this ordinance. It is altogether a different matter. It is not the purpose of this Council to get into litigation with any company; it is our duty to sit here and try to keep the city out of litigation. It is also equally our duty to help any corporation in the City of Pittsburgh; especially one competing with so large a corporation as the Postal Telegraph Cable Company is doing today. It is competing against a corporation which is allied with a great many other corporations and great banking firms in New York City. I also believe it is our duty to help this company, because they will employ home labor in this work. I must also differ with Mr. English on the matter of compensation. We should not ask this company to pay for this privilege; the citizens of Pittsburgh will be benefited by their constructing this tube; it will mean hours of time saved in the transmission of messages. For this reason, Mr. Chairman, I am going to vote for this ordinance."

Mr. Kerr arose and said:

"Mr. Chairman and Gentlemen—I take it that we cannot write in the ordinance a provision such as suggested by the previous speaker, because I do not think the Council has that power. I take it, further, that you cannot write in the ordinance a provision fixing the rates of the company, because that is taken care of by the Interstate Commerce Commission. And although the gentlemen representing the Postal Telegraph Cable Company have made the statement that the Post Roads Act gives them the right to enter upon the public streets, yet they have not entered upon our streets, and will not enter upon our streets until we have given them the right. I maintain that we have the right to write into that ordinance a provision providing for a reasonable compensation for the pneumatic tubes, which, I say again, is a new innovation. I think we will make a great mistake if we do not."

The Chair said:

"Gentlemen—I think that the privilege of entering the public streets has been granted this company by the Act of Congress. The whole question is whether the Council should tax the company for this pneumatic tube. That seems to be the whole question."

Mr. Kerr arose and said:

"Mr. Chairman and Gentlemen—Would it not be the part of wisdom for this Council to tax this company and then put it up to them to defend their position."

Mr. Raub arose and said:

"Mr. Chairman and Gentlemen—I was in Council in 1912, and the reason I am

voting to do differently is on account of the twenty years franchise. I consider that the business people of this city demand this proposition. It is a business proposition—it will be a great saving in time; it will probably mean an hour saved in the transmission of messages."

And the question recurring, "Shall the bill as read a second time be agreed to?"

The motion prevailed.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

"Mr. Chairman and Gentlemen—I would like to say a few words relative to this Ordinance. I do not object to the substance of the Ordinance, but I do object to one feature of it. I might raise a question of the legality of the Ordinance under the Act of Assembly, or even under the rules of the Pension Association. The Act of Assembly states 'that the amount paid to a pensioner, each and every pensioner, shall be one-half of the annual salary, computed monthly.' Now, whether you can consider this the annual salary and give it to a retiring officer, or give one-half to a retiring officer fifteen days after the salary had been boosted to this extent, how could you compute that monthly when there is not that length of service to be performed? There may be some question as to the effect that after twenty years' service a man may be pensioned on one-half of the salary of the office in which he must have served six months. Now, I think that the amount of the pension is determined by six months' service, and I think the salary of that office should have been paid for at least six months, and not boosted the last minute, creating a precedent. I understand it has been created before; that is, it has been done before. There is no need of boosting the salary and putting the man out of position on a decidedly increased pension. This man is a competent man, has been for years. We perhaps would have been justified in increasing his salary to the amount mentioned, \$2,400.00, in the appropriation Ordinance almost a year ago, but to boost it now, when we know positively that the man is either going, voluntarily or otherwise, to take up other employment, it does not sound good; it does not seem good policy."

Mr. Woodburn moved

That the bill be laid on the table for one week, and that the Law Department be requested to furnish Council at its next meeting, Tuesday, September 15, 1914, an opinion as to whether an employee of the City is entitled to receive, as pension, an amount equal to one-half of his salary based on the salary received during the six months prior to his retirement, or whether he is entitled to receive, as pension, an amount equal to one-half of his salary based upon an increase without serving six months at the increased salary.

No. 1721.

Pittsburgh, Pa., Sept. 14, 1914.

Hon. J. M. Goehring,
President of City Council,
Pittsburgh, Pa.

Dear Sir:

Enclosed please find report to your honorable body submitted by the Foreign Trade Commission of Pittsburgh, after approval at a regular meeting held in the Council Chamber, Monday afternoon, September 14.

Yours very respectfully,

J. J. NORDMAN,

Secretary, Foreign Trade Commission.

To the President and Members of the
City Council of Pittsburgh.

Gentlemen:

Pursuant to resolution adopted by your honorable body providing for the appointment of a joint commission representing the Mayor, yourselves, the Pittsburgh Chamber of Commerce, the Pittsburgh Industrial Development Commission and the Allied Boards of Trade, for the purpose of considering the advisability of furthering foreign trade in behalf of Pittsburgh, we beg to report that a meeting was held and an organization perfected in the Council Chamber on Thursday afternoon, September 10, 1914.

Mr. J. Rogers Flannery was elected chairman. Hon. Enoch Rauh was elected treasurer. Mr. J. J. Nordman was elected secretary.

After a full discussion of all phases pertaining to a propaganda for the extension of foreign trade on behalf of Pittsburgh, it was unanimously decided, upon motion, that this commission recommend to your honorable body the advisability of immediate and thorough pursuit of the plan.

While it was the sense of the meeting that the time was psychological for the encouragement of South American trade specifically, it was thought that the work of this commission might be handicapped later by designating it with a name that would restrict its activities to the South American continent. It is therefore suggested, for your consideration and approval, that this commission be known as the "Foreign Trade Commission of Pittsburgh."

For your information and guidance we report to you that, upon preliminary examination, we find that the exports from this country to South America during 1913 were \$146,000,000.00 as against nearly \$400,000,000.00 from Great Britain and Germany jointly. We believe that our imports to South America would long since have been augmented if concerted action had been taken along the lines now proposed, especially in view

of our closer proximity and our cordial international relations, due in a large measure to the protective care of our Monroe doctrine.

It is the sense of this commission that the proposed movement, if successful, will be beneficial to Pittsburghers in all walks of life and that the principle, and the benefits to accrue are broad enough to permit the city, with the fullest justification, to contribute towards its maintenance.

We therefore respectfully recommend that the persons appointed by virtue of resolutions of Council dated September 1 and September 8, 1914, consisting of E. V. Babcock, H. P. Bope, D. P. Black, J. M. Goehring, Robert Garland, Enoch Rauh, J. P. Kerr, J. Rogers Flannery, F. F. Nicola, W. C. Coffin, Lee S. Smith, E. M. Herr, M. G. Bryce and three additional members to be named by the Allied Boards of Trade, constitute a permanent commission under the name of the Foreign Trade Commission of Pittsburgh. Said commission to be an independent body, with powers to take such action as may serve to carry out the purposes of its organization.

We also recommend that your honorable body make an appropriation for the purpose of permitting this commission to at once enter upon its duties, and to this end we beg leave to suggest an appropriation in the sum of \$10,000.00.

It is the present plan of this commission to make its first and preliminary investigation in the City of Washington for the purpose of determining to what extent the organization and the machinery of the Department of Commerce and its corps of American Consuls may be employed to further the interests of Pittsburgh producers and to further determine from the various representatives of South American countries now stationed in Washington just how far they will co-operate with this movement.

With your consent and approval, it is the purpose of this commission to devise a fixed policy as the result of this proposed investigation and to pursue it to the best of its ability.

Very respectfully submitted,

J. ROGERS FLANNERY,

Chairman.

J. J. NORDMAN,

Secretary.

UNFINISHED BUSINESS.

Bill No. 1592. An Ordinance entitled, "An Ordinance fixing the salary of the captain of secret service operatives, Bureau of Police, Department of Public Safety."

In Council, September 8, 1914. Bill read and laid on the table for one week, and the Law Department requested to furnish Council at its next meeting, Tuesday, September 15, 1914, an opinion as to whether an employee of the city is entitled to receive, as pension, an amount equal to one-half of his salary based on the salary received during the six months prior to his retirement or whether he is entitled to receive as pension an amount equal to one-half of his salary based upon an increase, without serving six months at the increased salary.

The Chair presented

Bill No. 1725.

DEPARTMENT OF LAW.

Pittsburgh, Pa., Sept. 12, 1914.

To the President and Honorable Members of City Council,

Council Chamber, City Hall.

Gentlemen:—

Relative to your letter of September 10, 1914, asking for an opinion as to whether a retiring police officer is entitled to an increased pension because of increase in salary without having served six months prior to retirement at the increased salary, I beg to report:

That, from my investigation, I find that there are no ordinances regulating this matter, but that the by-laws of the Police Pension Fund Association provides that any member of the police or detective force who has rendered twenty years' service in the Bureau of Police or Bureau of Detectives is entitled to receive thereafter a monthly pension equal in amount to one-half of the salary paid him at the time he so retires, and that it is not necessary for such retiring police officer or detective to have served six months at the increased salary in order to receive the benefits of an increased pension.

However, for your information I would state that it is necessary for members or employees of the Bureau of Fire or Electricity, in order to receive a monthly pension equal in amount to one-half of the salary paid him at the time he so withdraws, to have served in the position for a period of at least six months prior to the time of such retirement, but not necessarily at same salary.

The Chair stated that as there were no objections, the reading of the minutes of the previous meeting would be dispensed with.

Mr. Kerr presented from the special committee appointed to prepare resolutions on the death of William A. Hoeveler

No. 1736. Whereas, It has pleased Almighty God, in His infinite wisdom, to have removed from our midst, by death, William A. Hoeveler, member of Pittsburgh City Council; and

Whereas, His sudden and unexpected death has brought sorrow to the hearts of his relatives, friends and acquaintances, and has cast gloom upon the entire community, yet we bow in humble submission to the divine wisdom of God; and

Whereas, The members of the City Council who were associated with Mr. Hoeveler in his public work, knowing his ability, appreciating his untiring energies and self-sacrificing devotion to all public matters, and recognizing his purity of thought, admiring his lovable disposition and noble traits of character, desire to formally record upon the official minutes of the Council of the City of Pittsburgh a tribute to his memory; therefore be it

Resolved, That the members of the Council of the City of Pittsburgh assembled do hereby express their grief and sorrow over the sudden and untimely death of William A. Hoeveler; and be it further

Resolved, That a suitable memorial be prepared and sent to his family, and that this resolution be spread upon the official Councilmanic record of the City of Pittsburgh.

G. A. DILLINGER,
ROBERT GARLAND,
J. P. KERR, Chairman.

Which was read.

Mr. Kerr moved

The adoption of the resolution.

Seconded by Mr. Garland.

The Chair called upon the members of Council for remarks.

Mr. Dillinger arose and said:

"Mr. President and Fellow-Members of Council—When I look at the vacant chair I do not think I have ever been impressed so much during the 43 years of my life, 20 years of that life having been spent in practicing medicine, as I have been by the sad, tragic ending of our colleague, Mr. Hoeveler.

"The fact that while we are 'in the midst of life we are in death' has not been so forcibly brought to my mind as it was by his sad ending. No one with the tenderest feeling can ever remember by look, word or gesture anything in the

manner or speech of our departed colleague that could have caused the slightest tremor in one's feeling.

"Mr. Hoeveler was a gentleman, born and bred.

"However much we may have differed, it was always in a dignified, gentlemanly and courteous manner. He had as much respect for the opinion of those differing from him as he had for his own, and we know, as members of Council, that he was always guided by what he believed to be right and by the dictates of his own conscience.

"He was a most gracious and charming man to be associated with. I can only add that we will miss him; the City of Pittsburgh will miss him; and I hope that his ashes may rest in peace and that his soul may then receive that rest in the great beyond which is awaiting those who live not only for themselves."

Mr. English arose and said:

"Mr. President and Gentlemen—The sudden, terrible shock we received on Monday makes it difficult to find appropriate words for this memorial service in honor of William A. Hoeveler.

"I became acquainted with Mr. Hoeveler some twelve years ago, when I tried to sell him some building material. In his simple and straightforward manner he explained that he had received a lower bid from a competitor, and as he wanted others to deal fairly and justly with him it was his duty to deal fairly and justly with others. On that occasion, quite early in my career in mercantile affairs, I had learned the application of the Golden Rule, which has helped me ever since.

"We had met quite frequently up until last year, when we were drawn closer together during the political campaign. Occasionally after I would criticize some measure, or vote of the members of the previous Council, Mr. Hoeveler would follow me and challenge my statements. He frequently devoted more time answering me and defending the Council than he did urging his own election, because he thought the measures were right and that I was wrong. He felt it his duty to stand up for what he thought was right, at all times and in all places, whether in the primary or in the election, and, as we know, up to the last words he spoke. What an inspiration to any man whether in public or in private life!

"Since the election our acquaintance developed into a lasting and intimate friendship. We agreed on many matters, yet there were other matters on which we did not agree, but not once did Mr. Hoeveler lose his temper or say unkind words to or about any of us. We perhaps did not realize it from day to day, but I venture to suggest that we all agree that his life and actions in this Council should be a pattern for all.

"The beauty and charm of his simple, straightforward manner of expression won respect and admiration and immediately disarmed his opponent. Many times did he prove that

'A soft answer turneth away wrath,' and

'He that is slow to anger is better than the mighty; and he that ruleth his spirit better than he that taketh a city.'

"The hard heart of the unbeliever may attempt to argue that the sudden death of our colleague without warning is not the method of a just and living God. To the believing Christian it is evidence that Mr. Hoeveler's spiritual house was in order and that he was ready for the change from earthly labor to heavenly glory. Mr. Hoeveler was a Christian of sublime faith and trust in Christ, and he believed in the Holy Bible, which plainly tells us

'But of that day and hour knoweth no man. No, not the angels of heaven, but my Father only. Therefore be ye also ready, for in such an hour as ye think not the Son of Man cometh.'

"We can never forget his modest, unassuming demeanor, his humble and unaffected bearing, and, above all, his honest and conscientious efforts in the discharge of duty.

"His life should be an inspiration and a lesson for us and the City we serve. We will miss him, but we will not forget him. We can never erase from our memory the impression created by his beaming countenance.

'The glory of young men is in their strength, and the beauty of old men is the grey head.'

'The hoary head is a crown of glory if it be found in the way of righteousness.'

Mr. Garland arose and said:

"Mr. President and Gentlemen—We have been bereft of a colleague with startling suddenness, bringing to our minds most forcibly and vividly the injunction, 'In the midst of life we are in death.'

"The community has suffered the loss of one of her foremost citizens—one who gave unstintingly of his time in the service of the City, whose constant watchwords were 'Economy' and 'Efficiency.' And while some of us differed with him many times on questions of policy, no one ever doubted his sincerity or questioned his honesty.

"He was a man of extraordinary refinement, of exquisite charity, of engaging personality, and rare courtesy—to such a degree, in fact, that one could say of him, that he was truly and in every respect a typical gentleman of the old school.

"Taken away from us, as he was, in harness, surrounded by every one of his colleagues, having expressed himself clearly, concisely and emphatically on a subject which was dear to his heart, it may be that the manner of his departure would have been his preference had the choice been his. His passing away was peaceful and painless, and, perhaps, was

a fitting close to a life which during recent years had been dedicated to the uplift and welfare of his fellow-citizens.

"He leaves his family, whom he dearly loved, that priceless heritage—a good name.

"We, his associates in Council, have lost in him a warm friend, for

The gentlest and the kindest of men
Has gone at last from out our mortal ken,
But not from out our memories that keep
Vigils of love beside his tranquil sleep,
And in this season of the fallen leaf
Pour round his name our elegiac grief."

Mr. Herron arose and said:

"Mr. President and Gentlemen—In the death of William A. Hoeveler the City of Pittsburgh loses an honorable and upright citizen, one who was willing at all times to lend a helping hand to those in need. His sudden death, coming as it did, will always leave a lasting impression upon me, for in our short acquaintance I had learned to love and respect him. He was kind, good natured, and so considerate of others that it was a pleasure indeed to be in his company.

"I am at a loss to find words to express my sympathy with his family or to adequately appraise the loss to the members of this Council.

"It was my privilege to be seated next to Mr. Hoeveler, and he always gave me the benefit of his experience. I feel that it will be a hard problem to find in any one man the many sterling qualities he possessed.

"He was tolerant of those who differed with him on any subject, and recognized in debate and otherwise that his opponents were actuated by the same patriotic sentiment in their position that he was in his. His life was clean and pure, practicing daily all the principles he professed; with sublime devotion as a husband, plain, straightforward and unassuming, he was one whom any person would delight to honor and whose memory will always remain sweet and fragrant in the hearts and minds of the people of Pittsburgh."

Mr. Kerr arose and said:

"Mr. President and Members of Council—It is with a heart burdened with sorrow that I arise at this time to say a few words in tribute to the memory of our late colleague, William A. Hoeveler. I knew him but a short time. I did not have the pleasure of his acquaintance until we took our seats in Council, and I have always thought that I have lost a great deal by not having had the pleasure of enjoying the acquaintance and association of such a man as Mr. Hoeveler for a much longer time. He was a man of high ideals, a man of sterling integrity, a man of untiring energies, and a man consecrated to his work. He was a loving and indulgent father. His even temper, his lovable disposition, his easy manners, commended him to all with whom he came in contact. He was not without fault, because it is human to err, and his good

qualities so far outshone his shortcomings that we could only see his virtuous qualifications.

"Any community might well be proud of such a man as William A. Hoeveler.

"The City of Pittsburgh has lost a most energetic and conscientious servant; the Council has lost a most genial and companionable associate.

"It is beyond the conception of the human mind as to why a man of such noble traits and even disposition should die such a tragic death; yet those things are beyond the understanding of us all."

Mr. Bauh arose and said:

"Mr. President and Gentlemen—In the death of William A. Hoeveler, the people of Pittsburgh suffer a double loss. Not only was he a trusted and respected gentleman, but he lived the life of a true citizen of the commonwealth. His sudden and untimely departure into the Eternal Valley of Sleep, from whence none awakes, while he was in the performance of his official duties, was symbolic of his entire public career.

"Fortunate do I consider myself in having been privileged to share the association of this man of clean moral fiber, of earnest, sincere purpose and of gentle, kindly disposition. He was my good friend and I was always his. For three years he occupied the seat immediately beside me in the committee meetings of Council, and it was here that I first learned to know and appreciate his fine qualities. On hundreds of topics we consulted, for in each other's counsel we both had confidence. On all matters I discovered him to be honest, able and, above all, honorable. No eulogy or encomium need be offered about his lovely character. His was a noble life.

"I shall always cherish the thought that even though our honest differences of opinion occasionally necessitated our choosing opposite sides, never had we an unkind word for each other. We all called him "Daddy," for he endeared himself to our hearts at once. But our dear "Daddy" shall not soon be forgotten. The inspiration of his personality and power shall long leave their impress upon our minds and hearts and souls.

"He fulfilled the highest duty of life by serving others first and in the performance of his work he left us. He rightly gave his time to the people who honored him, and then he honored the people by serving them. He is the first member of the newly instituted Council of nine to be taken far away into the unknown. Summer winds and winter blasts will blow; old Mother Earth will put on a coat of white and then a garment of green; the whole world will move on uninterrupted—but the memory, the influence and greatness of William A. Hoeveler will long remain a source of pride to those Pittsburghers who were fortunate enough to have known him, and to those who have merely tasted of his genial personality."

Mr. Woodburn arose and said:

"Mr. President and Gentlemen—Upon such an occasion, especially under the sorrowful circumstances determining this meeting, the heart rather than the head dominates speech.

"We have consigned to the tomb, Mr. President, all that was mortal of our revered colleague, there to await the hour and the power of the resurrection. But a few days ago he stood before us in the dignity and glory of his venerable manhood and calmly counseled that former action be not rescinded for, in his opinion, previous judgment had stood the test of time. He was ever thus steadfast and resolute, tenacious of purpose and opinion. Perhaps we now regret that, some time or other, we considered him obstinate.

"He was impatient of legislative restrictions and legal restraint, because they withheld from his people the full benefit and advantages of self-government.

"Many of his ideals were so high that the less determined and enthusiastic eye failed to overlook the insurmountable difficulties of attainment. It seemed to trouble his kind, old heart when we could not see things as he saw them.

"But if there ever was a show of impatience it was on our part, not his.

"Never in all the years of our association did he give way to anger, no matter how great the provocation. His soft answers gave him the mastery.

"He accepted the appointment of the Governor of Pennsylvania because it gave him the opportunity to secure for the people of his native city the improvements and betterments he had long thought they needed and deserved.

"During his last political campaign his whole theme was their relief from the cares and trials of this life through the conservation of necessities and economy of resources. Forty thousand men honored him with their highest expression of confidence and trust. Today, over half a million people mourn the loss of a faithful servant, whose life was above reproach and whose honesty and integrity was never questioned.

"When Death met him William A. Hoeverel wore the yoke and bore the burden of the people he loved and served."

President Goehring arose and said:

"Gentlemen of Council and Friends—My acquaintance with Mr. Hoeverel perhaps antedates that of any other member of Council. I remember of his occasional visits at my father's house when he was a mere boy. In later years we met at social gatherings, at which he, by reason of his musical attainments and pleasing personality, was a leading spirit. He subsequently developed into a successful business man, and as such he acquired by experience that business knowledge which served him so well as a councilman in passing upon legislative question affecting the business interests

of the city. As a large owner of real estate he was in a position to perceive the injustice of excessive taxation and the importance of obtaining equitable and fair property assessments, and upon these questions his voice was frequently heard in Council.

"Passing much of his time at his country home, he came to realize the importance of affording better market facilities to the farmer and gardener, and this subject was ever uppermost in his mind. He was a firm believer in conducting the city's affairs along business lines and in the applying of the methods of efficiency and economy which so largely contributed to his business success.

"Mr. Hoeverel was a man of strong personality. Having once made up his mind he was slow to change. He was persistent in the advocacy of his views, but always without offense. He never allowed the heat of debate to cause his forgetting the courtesy due his colleagues, and his quiet 'I beg your pardon if I have transgressed the rules,' was a mild reproach to those of us less considerate in our deportment. He had the faculty not only of making friends, but of retaining them, and he took a special pleasure in fostering the friendships of his early days.

"In connection with the public questions in which he was interested it was his habit to consult his friends as he met them in the office or in the street. He thus secured a fund of information that was of value not only to himself but to his fellow councilmen in their deliberations.

"No member of this body was more faithful in attendance at both Council sessions and committee meetings. The draped desk and chair remind us that we shall never again see his familiar form in its accustomed place. With startling suddenness he received the summons that brooks no postponement. He has crossed the bridgeless river, over which there is no return. It remains to us that we emulate the virtues of our dead colleague, his unaffected simplicity, his rugged integrity and his ardent zeal for the public good."

Hon. E. S. Morrow, City Controller, was called upon, arose and said:

"Mr. President and Members of Council—There could not have been a better tribute paid to the memory of William A. Hoeverel than was paid him yesterday, in spite of the storm and the rain, when a large congregation almost filled St. Paul's Cathedral.

"I have heard since Mr. Hoeverel's death so many people say, 'We have lost one of our best men.' He was one of those rare men who united with himself that child-like disposition that His Master said was 'blessed,' with rare business qualification.

"He was honest, as the saying goes, as the day was long. He was truthful. He was upright. He was like an open book. He advocated measures which he

thought were right, no matter who opposed him, or if he stood alone.

"Reading an article by Palmer in 'Everybody's' Tuesday night it stated that the Belgians' only answer to the question of war was, 'My duty.' That also may be said of Mr. Hoeveler in his affairs, councilmanic or otherwise. It has been said, time and again, by everyone, 'He was a gentleman to the fingers' tips, courteous, kind, tender, thoughtful of others.' His hair was white as winter snow, but his heart was warm as summer's glow. We have said of him, 'that his death was sudden; that the call was untimely.' No, Mr. Hoeveler, lived as a man who had his loins girded and his lamp burning, waiting the coming of His Master, and he could not be taken by surprise. And today he is gone to that land of everlasting summer, where no grief makes the eyelid red or the heart heavy.

"I shall miss him. I have known him for years before he came into Council. I have always admired him and have always felt that in him I had a friend. I today, with others, mourn his loss."

Hon. Joseph G. Armstrong, Mayor, was called upon, arose and said:

"Mr. President and Members of City Council—It is with deep regret that I, during the short period of my term in office, meet again with you gentlemen in Council on an occasion of this kind.

"We meet here today with heads bowed in sorrow to pay tribute to the lovable memory of Honorable William A. Hoeveler, whose untimely death has caused irreparable loss to his family and to us, his friends.

"It was my pleasure to count Mr. Hoeveler as one of my very dear friends for the past 10 years: in fact, since I first became acquainted with him. Long before his affiliation with your honorable body I recognized in him a real student of municipal affairs and a man who could go into the offices of the different city departments and in a very few words, in his quiet, dignified way, express his thoughts on the different projects that were being carried on by the city government, and from which suggestions many good ideas often arose which were of great benefit to all of us.

"Mr. Hoeveler was the type of man whose contact with people caused them to admire him. There was something so very lovable about him that won for him his many friends. In fact, the more you met him the better you liked him, and it is not surprising that he endeared himself to everyone in such a way that we could not help calling him 'Daddy' Hoeveler.

"The amount of time he gave to his office and the extent to which he went in trying to look after the interests of those who had reposed their confidence in him is too well known for me to mention here.

"He was thoroughly acquainted, not only with the workings of the large departments, but even down to the smallest

details in connection with them. The fact of the matter is that in our cabinet meetings there was always something cropping out from the heads of the departments which had already been suggested by Mr. Hoeveler, and I therefore feel that not only your body will miss his wise counsel, but also the executive department of our city government will be as much at a loss in his absence.

"Mr. Hoeveler was a man of very strong character and possessed an unlimited amount of self-confidence, and while, at times, he would differ with you, which he did with me at times, he was always a gentleman. His difference of opinion, while debating on legislative matters, was always accompanied with a kind, mild, dignified manner, yet the force of his argument never lost its effectiveness on account of his gentlemanly qualities.

"I can already foresee the difficulties that will present themselves while taking up the task of selecting a successor to fill this vacant chair.

"Mr. President, and members of City Council, again I assure you that it is with the keenest regret that I join you in paying tribute to that lovable character, the Honorable William A. Hoeveler, whom God, in His almighty wisdom, has seen fit to take from our midst."

Mr. C. A. O'Brien, City Solicitor, arose and said:

"Mr. President and Members of Council—William A. Hoeveler, your lamented colleague, was to the manor born in Pittsburgh, and by his life and services contributed a high type to her citizenship. He took great pride in the fame and prestige of our city, and he devoted much labor and thought to the welfare of her people. Mr. Hoeveler was really a fine example of civic virtue. Having achieved personal and private success, which is the sole aim of the vast majority of men, he was not content to rest at this goal, but was moved by a humane and unselfish desire to help his city and his fellowmen. He was generous, big-hearted and gracious of word and manner, which accounts for his wide popularity; but beyond this were rare integrity of purpose and loyalty to duty, which inspired in his fellow-citizens that extraordinary confidence they showed in his character and judgment. Mr. Hoeveler came to the public service with a high conception of the measure of his duty, and he lived up to his ideals to the end of his career. His views on community life and municipal government were all broad and comprehensive, too broad in many cases for possibility of success in our time, but they always represented the wish and effort to better the condition of all classes, to cheapen food supplies, to increase comforts and pleasures for the great public, to protect health, to educate, to encourage, to brighten and hearten life for all. Sometimes I thought he felt discouragement and want of appreciation in legal handicaps and hindrances to his enthusiasm in his good work, and he would deplore

these obstructions. He was a serious and thoughtful student of economics and human conditions, and fertile and resourceful in suggesting means and measures for betterment and relief. His modesty, however, was so great, his consideration for the opinions of others so habitual, that he often yielded where the more selfish and self-confident would have succeeded on the merits of a subject under discussion.

"Industrious, faithful, loyal in the public office to which he was called, Mr. Hoeveler rendered genuine service, and his initiative will be productive of benefits in the future to those for whom he labored—the people.

"How the fateful tragedy which came to this chamber last Monday evening forces our appreciation of the mournful lines of Mrs. Hemans:

Leaves have their time to fall,
And flowers to wither at the north
wind's breath,
And the stars to set, but all,
Thou hast all seasons for thine own,
O Death!"

Mr. E. V. Babcock, being called upon, arose and said:

"Mr. President and Gentlemen of Council—I desire to express my gratitude to you, Mr. President and the gentlemen of Council, for the invitation to be here today and help you pay honor to the memory of William A. Hoeveler.

"I want to say about 'Daddy' Hoeveler what I hope some friend can say about me when the curtain of life has rung down: He lived a useful, honest, sincere, consistent, energetic, unselfish life."

Mr. D. P. Black, being called upon, arose and said:

"Mr. President and Gentlemen of Council—It was not my privilege to serve in Council with Mr. Hoeveler for a long time, but it was my privilege to know him for more than thirty years.

"And I want to say Mr. Hoeveler's work did not consist of the labors he performed in this Council, but the things he did many years prior to his taking office as a Councilman of this great city. I believe it is more than thirty years ago that Mr. Hoeveler brought to my attention his first scheme for the betterment of the condition of the people of the City of Pittsburgh. Some of his schemes were considered impractical; some thought they were visionary; but in years after many of them have been put into practical use. I am glad that he lived long enough to see some of his ideas put into operation. He always worked for the benefit of the people and his native city. Any proposition that he proposed in or out of Council was never beneficial to himself or that he made any money out of it. It was always for the benefit of the city at large. He was not a man who worked with one eye on the clock. He worked day and night. I know that frequently he would come to my office early in the morning with work that I knew he burned the midnight

oil to do. He would sometimes ask to have it typewritten, and we would gladly do it for him. But before he did that he would ask advice. Father McDermott told me yesterday that he frequently went to the heads of universities and got their advice. He did not want to present anything to Council that he did not know something about. His labors were useful to the City, but never beneficial to himself. Anything that he suggested or planned was passed upon by the best authorities at his own expense.

"Mr. Hoeveler had many hobbies, and all of them were considered good. But I think one of the finest hobbies he had was his beautiful farm down on the hills overlooking the Ohio river. He got close to nature. He was a lover of nature, and a lover of anything that grew, even the lowest animal or vegetable plant. He was an economist, and if he knew that two blades of grass could be grown where there was only one he would be certain to grow those two blades. He would never keep a scrub when he knew a thoroughbred could be raised in its place. He looked for results.

"It was my pleasure to be entertained at his summer home, and I don't believe that any man could ever have been entertained such as I was by Mr. Hoeveler. You would look across the table and see his beaming countenance, which displayed nothing but the kindest feelings for every man. His smile indicated that you were a welcomed guest. He was an ideal host. He was one who enjoyed that farm, and I am sure that those who have had the privilege of being entertained at that farm will feel the same as I do.

"Mr. Hoeveler has gone, but his influence and works will go on, on and on!"

Mr. W. G. Wilkins, being called upon, arose and said:

"Mr. President and Gentlemen of Council—I can only second the remarks of the previous speakers in that I agree with every word that was said, particularly as to Mr. Hoeveler's uprightness.

"I served with Mr. Hoeveler in Council for two and a half years, and during that time we had many conversations, and on many occasions we had differences of opinion. He and I differed on a great many engineering problems, and on one occasion he came to me and said: 'Wilkins, you are an engineer by profession, while I am an engineer without a diploma.' It must be said of Mr. Hoeveler that he was a good engineer without a diploma, but would have been a better one with a diploma.

"Notwithstanding the many differences of opinion between Mr. Hoeveler and I, when he would leave the Council chamber he would laugh them off and be just as good friends as before.

"I cannot tell you how much I was shocked when I was called up on the telephone and advised of his sudden and tragic death. I laid awake that evening thinking of the times we sat together in this Council and at committee meetings.

"I miss Mr. Hoeveler, and I feel as the rest of you do, that his place will be hard to fill."

Mr. A. J. Kelly, Jr., being called upon, arose and said:

"Mr. President and Gentlemen of Council—It is hardly worth while for me to extol on Mr. Hoeveler's ability or the service he rendered the community.

"I would like to remark on what Mr. Hoeveler was to me and probably to you personally. I knew Mr. Hoeveler for many years. In June, three years past, he stood alongside of me in his seat and received the oath of office of the Council of Nine of the City of Pittsburgh. Since that time I have known Mr. Hoeveler and seen him almost daily. My dropping out of Council seemed not to have made any difference with him in his frequency of calls or his conversations on various matters in which he was interested. Any proposition he proposed, or was interested in, he followed up step by step. Even on last Monday morning he called in to see me and invited me to attend the meeting of the Finance Committee to be held that evening, to listen to the discussion on the Ordinance then under consideration. I could not help but feel that some way and somehow W. A. Hoeveler's life was mixed with mine in a personal way, beyond any public, neighborly or business way. I was glad to know that he died in the arms of his friends and associates.

"Life is made up of milestones. Mr. Hoeveler, in my life, somewhere and somehow, made one of those milestones, and I believe he did to all who knew him.

"We cannot extol the dead. His life has been lived and his history will live after him.

"But what was Mr. Hoeveler's secret? That might be worthy to us. I thought I saw what his secret was. He had sublime faith in an Almighty God. He believed that this life was not selfishness, for in all the things he proposed it was for the other man.

"The last time I spoke to him he talked about the mothers' pension law. He stated that it was his belief that the mothers should be allotted a certain number of acres of ground, to be donated by the State, for their own benefit. He differed from what the law proposes. His idea was to help somebody else and he had the right idea. He did not believe in helping one by munificence or gift, but by teaching them to help themselves. And that was his scheme of the mothers' pension law. He wanted it put on a basis that the mother of the family would be made self-supporting and independent.

"Mr. President and gentlemen, I believe that we all have been benefited by Mr. Hoeveler's life, although his family and the community have suffered a great loss. And I believe that if we all helped somebody else, as was his idea—his manner of looking at things—he will not have lived in vain; and if we believe

what he preached, what he taught, and the road he passed by, it will help us to serve our fellowmen."

Mr. P. J. McArdle, being called upon arose and said:

"Mr. President and Gentlemen of Council—I can conceive of no words which might be moulded into expressions eulogistic of the life and character of our good friend, Mr. Hoeveler, to which I cannot say a most hearty 'Amen.'

"It was not my pleasure and good fortune to have known him very long, our acquaintance dating only from the time we began to serve together as members of Council; but, as the saying is, 'the first impression is the most lasting.' It was truly so in his case, and at the very first I learned to see in him what I believe to be the marks of true manhood. I do not remember him so well and I do not hope to remember him so well by the many things he sought in a material way for the people he represented, but rather to remember him for that masterly self-control, which stood out, it seems to me, more prominently than any of his noble traits of character that have been referred to by every man who has spoken. It is referred to on the streets by those who knew him only casually and by those who knew him for a long number of years. The fact that wherever and under whatever circumstances you came in contact with him, whether it was a grievance upon some of his most cherished plans, or whether on the forum to take opposite side from him, there was that respect for the other man's position, for the other man's feelings, which made him stand out prominently from the rest of us. And that fact, it seems to me, is the highest possible achievement of mind. He learned to fully master and control himself. That seemed to be an achievement in a large measure of our good friend.

"Now, that he has gone out of the lives of countless thousands who knew him, I am sure that no one will mourn him more sincerely, not for the good he did for any individual, but for what he has contributed by his efforts to the people as a whole, and, most of all, by the inspiration that his life has been to those seeking honestly to mould their lives so that in the life record they have achieved most.

"Now, that he has gone, what I say of him should be our fondest hope that it could be said of us when we occupy the place that he now does: 'The world is better because he lived in it.'"

Mr. Robert Swan, Director of the Department of Public Works, being called upon, arose and said:

"Mr. President and Gentlemen of Council—We have lost Mr. Hoeveler. Not only the departments of the city government, who loved him, the Council of the City of Pittsburgh, of which body he was an efficient member, but all the people of Pittsburgh could ill afford to lose a man of such sterling qualities. I cannot say anything better than what I

thought, when I saw him lying in his home, of what Antony said of Brutus:

'His life was gentle. Now, the elements were so mixed that nature might well rise up and say he was a man.'

General **A. J. Logan**, being called upon, arose and said:

"Mr. President and Gentlemen of Council—I have been absent from the city for the last 30 days, and last evening was the first time I learned of the tragic and untimely taking away of Mr. Hoeveler. It was the greatest sorrow that ever came upon me by the death of any friend or relative. I have known Mr. Hoeveler for many years. In early manhood we were together a great deal in a social way. I have observed him and found him to be a pleasant and useful citizen. He was a man who had at all times the interests of the city in his

mind. Many years before he or his friends thought that he would occupy a public position he gave a great deal of time and thought to bettering the conditions of his city and to help his fellow-citizens. I believe that the best I can say now is to thoroughly endorse the many expressions that have been made in honor of the memory of Mr. Hoeveler. In his death I believe that the City of Pittsburgh has lost one of her most useful fellow-citizens."

And the question recurring on the adoption of the resolution.

The motion prevailed by a unanimous rising vote.

Mr. Kerr moved

That, out of respect to the memory of Mr. Hoeveler, Council do now adjourn.

Which motion prevailed.

And Council adjourned.

Hon. John M. Goehring,

City Hall, Pittsburgh.

Dear Sir:—

I beg to submit herewith copy of resolutions adopted this afternoon at the regular meeting of our Central and Advisory Boards.

Yours respectfully,

P. R. WILLIAMS,

Associate Secretary.

RESOLUTION.

Whereas, The death of the late lamented Hon. William A. Hoeveler has created a vacancy in the City Council, which is to be filled by appointment by the Council and the Mayor; and

Whereas, Active campaigns are being conducted in the interest of candidates claiming consideration on the ground of success as professional politicians, expert in the manipulation of votes for political purposes, and of others who apparently see in the office an opportunity for the furtherance of personal political ambitions; and

Whereas, It was this type of men who made the record of the old bi-cameral Council malodorous, while, on the other hand, the Council as now constituted has commanded public confidence because of the appointment thereto of men of recognized ability in business affairs and in the professions, and of proved leadership in civic life; therefore

Resolved, That it is the hope of this board that the Council and Mayor will be careful to fill the present vacancy by securing therefor another man of a high type that has prevailed in the appointments hitherto, a man to whom the position can be made to appeal as an opportunity for public service, rather than as one to be used for political advantage.

Resolved, That a copy of these resolutions be presented to each member of the Council and to His Honor, the Mayor. Which was read, received and filed.

If we establish an employment agency the proper place is in the Department of Civil Service, because there they are intimately connected with people out of employment. I do not think it necessary to create additional positions."

"Mr. President and Gentlemen—For the same reason as given by Mr. English, I propose to vote against this bill. We have no knowledge that the Bureau of Information and Complaints is capable of handling this additional function, or whether they have the ability and time. In my opinion, if this employment agency is to be a success it should be handled by men who are trained in this work, and men who can give their time and thought to it. COUNCIL

JOHN M. GOEHRING.....President
E. J. MARTINCity Clerk
ROBERT CLARK.....Assistant City Clerk

Pittsburgh, Pa.,

Monday, October 5, 1914.

Council met.

The **Chair** presented the following:
No. 1820.

Pittsburgh, October 5, 1914.

Hon. John M. Goehring.

President of Council.

City Hall, Pittsburgh, Pa.

Dear Sir:

I hereby certify that on Friday, October 2, 1914, at 2:30 o'clock P. M., I mailed, in the usual manner, to each member of Council, and to the Mayor of the City of Pittsburgh, the following notice:

"Pittsburgh, October 2, 1914.

"Dear Sir:

"Council will meet in special session, in the Council Chamber, on Monday, October 5, 1914, at 3 o'clock P. M., for the purpose of electing, in conjunction with His Honor, the Mayor, a member of Council to fill the vacancy caused by the death of William A. Hoeveler.

"Yours respectfully,

"E. J. MARTIN,

"City Clerk."

E. J. MARTIN,

Clerk of Council. (Seal)

Which was read.

The **Chair** stated that, as there were no objections, the same would be made a part of the record.

The **Chair** ordered the Clerk to call the roll.

And the roll being called, was as follows:

Present—Messrs.

Dillinger Goehring (Pres't)
Garland Rauh
and Hon. Jos. G. Armstrong, Mayor.

Absent—Messrs.

English Kerr
Herron Woodburn

The **Chair** arose and said:

"Gentlemen:—This meeting is called for the purpose of holding an election to fill the vacancy in Council, caused by the death of William A. Hoeveler. Under the Act of Assembly said election is to be participated in by the members of Council and the Mayor. The call of the roll shows the presence of four members of Council and the Mayor, and the question presents itself as to whether the Mayor should be counted in determining whether a quorum be present. This I consider to be a question of law, involving the construction of the Act of Assembly providing for said election, and, in anticipation of the point being raised, I have asked the City Solicitor to furnish an opinion upon the subject, which I have, and will ask the Clerk to read."

And the **Chair** presented

No. 1831.

DEPARTMENT OF LAW.

Pittsburgh, October 5, 1914.

Hon. John M. Goehring,

President of Council.

City Hall, Pittsburgh, Pa.

Dear Sir:

Replying to your request to be advised concerning the procedure to elect a successor to Hon. W. A. Hoeveler, member of Council, lately deceased, I beg to state:

The filling of a vacancy in the case of the death of a member is provided for in the Ninth Section of the Act of 1911, creating the Council, as follows:

"Section 9. In the event of any vacancy occurring in said Council by death, resignation or otherwise, the same shall

be filled by an election, at which every member of Council and the Mayor shall have one vote; and the person receiving the majority of all votes cast shall be declared elected to serve, in place of the member so dying, resigning, or otherwise vacating his position as member of Council, until the first Monday of January following the next general municipal election, at which his successor could be chosen, in accordance with the provisions of law governing municipal elections and as provided in Section 2 herein."

At the proper time after the death of Mr. Hoeveler, it was not only your right, but your imperative duty as President of Council, to convene, by due notice, those legally charged with the responsibility of electing a successor to serve in his place until the next general election, to-wit, the Mayor of the city and the remaining members of Council. When the Council and the Mayor meet together for the purpose of said election, the Mayor is a constituent member of said elective body, and is entitled to vote on every matter pertaining to said election, whether in determining a quorum, a majority or any other essential of a valid election.

The very manifest purpose of the legislative provision giving the Mayor a vote is to prevent a tie vote, and a consequent deadlock, resulting in delay, and possible indefinite postponement.

To deny the Mayor a vote in the organization of the elective body would be to defeat the very purpose for which he is given a vote at the election, viz.: to avoid delay, strife and ultimate failure, to the hindrance and obstruction of public business.

Respectfully yours,
CHARLES A. O'BRIEN,
City Solicitor.

Which was read, received and filed.

The **Chair** arose and said:

"Gentlemen:—In accordance with the City Solicitor's opinion, I declare that there is a quorum present, and we are ready to proceed with business. The Clerk will please read the call."

And the call, as follows, was read:

Pittsburgh, September 30, 1914.

Mr. E. J. Martin,
Clerk of Council.

Dear Sir:

Please call a special meeting of Council for Monday, October 5, 1914, at 3 o'clock P. M., for the purpose of electing, in conjunction with His Honor, the Mayor, a Councilman to fill the vacancy caused by the death of William A. Hoeveler, Esq.

Yours very truly,
J. M. GOEHRING,
President of Council.

Which was received and filed.

Mr. **Garland** arose and said:

"Mr. President and Gentlemen:—I would like to place on record an opinion I received from an attorney of promi-

nence in Pittsburgh, and one who helped to draft the Act of Assembly which governs this Council. However, I do not want to detract from the opinion of Mr. O'Brien, City Solicitor, as I have the fullest confidence in his wisdom and judgment. I took it upon myself to ask for this opinion, and would like to have it read and placed upon the record."

And the Clerk read the following:

No. 1832.

PATTERSON, CRAWFORD, MILLER &
ARENSBERG.

Oliver Building.

Pittsburgh, Pa., October 5, 1914.

Robert Garland, Esq.,

Pittsburgh, Pa.

Dear Sir:

In response to your request for an opinion as to whether or not, under the Act of May 31, 1911, P. L. 463, a quorum of Council is necessary in an election to fill a vacancy, I beg to advise you as follows:

The provision as to the election is contained in the Ninth Section of the Act, and is as follows:

"Section 9. In the event of any vacancy occurring in said Council by death, resignation or otherwise, the same shall be filled by an election, at which every member of Council and the Mayor shall have one vote, and the person receiving the majority of all votes cast shall be declared elected to serve in the place of the member so dying, resigning or otherwise vacating his position as a member of Council, until the first Monday of January following the next general municipal election, at which his successor could be chosen, in accordance with the provisions of the law governing municipal elections and as provided in Section 2 herein."

The question you ask is if, in this election, the Council meet as a Council and a quorum of Council is necessary for the purpose of conducting the election. In my opinion, they do not meet as a Council and a quorum is not necessary. The Act is specific in its direction that each member of Council shall have one vote and the Mayor shall have one vote in the election which takes place. Logically this is an election by the individuals composing the Council and the individual who occupies the office of Mayor. If it were possible for Council to break the election by not having a quorum present, in like manner it would be possible for the Mayor to break the election by not attending in person. This result clearly could not be taken to be the intention of the Legislature, unless so plainly expressed as to leave no alternative. The result also might follow, if this view were correct, that where, out of nine electors, five were in favor of a particular candidate and desired his choice, the remaining four could prevent his election by simply refusing to attend and vote.

The Act further directs that the person receiving the "majority of all votes cast" be declared elected, and by this language shows that the only condition of election is that of the votes cast, however many they may be, the successful candidate shall have received a majority.

In ordinary business the Council, of course, meet as a legislative body, and for this purpose their rules of order providing for the attendance of a quorum are proper enough, but in making the election the individuals who compose Council are each entitled to one vote and the individual who is Mayor is entitled to one vote, and the meeting is not a meeting of Council nor a joint meeting of Council and the Mayor, but an election at which persons qualified to vote may attend and vote if they see proper, but their failure to so attend and vote cannot defeat the election, in the absence of any expression or intimation of such intention in the Act.

Very truly yours,

THOS. PATTERSON.

Which was received and filed.

The Chair said:

"Gentlemen:—The first thing, and the only thing, in order will perhaps be the selection and election of a man to fill the vacancy in Council caused by the death of William A. Hoeveler. And we are now ready to receive nominations."

Mr. Garland arose and said:

"Mr. President and Gentlemen:—It gives me great pleasure to place in nomination for the vacancy existing in Council the name of Charles H. Hetzel, resident of the North Side, Pittsburgh."

Mr. Dillinger arose and said:

"Mr. President and Gentlemen:—It is with a great deal of pleasure that I second the nomination of Mr. Hetzel. Having served with him for two years in the old Councils, I know him to be a representative of the people. As was most fittingly said, in paying tribute to the memory of Mr. Hoeveler, that he was a gentleman, always dignified and courteous in his consideration of fellow-members; I can say that it is very fitting that we have found a man in Mr. Hetzel of the type of our deceased colleague. Mr. Hetzel is an estimable man, a representative business man, an old citizen of Pittsburgh, and comes from an old family of Pittsburgh. It is with a great deal of pleasure that I again second the nomination of Mr. Hetzel."

The Chair arose and said:

"Gentlemen:—I want to say that it is a matter of particular gratification this nomination (as I take it there will be no further nominations for the position) should go to a representative of the North Side. Having been born and raised on the North Side, although of recent years a resident of the East End, I have not forgotten the interests that I think the North Side are entitled to; and it

has been my contention ever since this vacancy occurred that the North Side was entitled to that representation. The North Side represents 200,000 of the population of this greater city, a population of one-third of the greater city; not only that, but it is one-third of the area of the greater city. At present as we stand, due to the unfortunate dropping of our friend Wilkins, out of nine members, the North Side has but one representative; and it is only fair, irrespective of the man, that the North Side should have the representation for this vacant seat. And for that reason it is particularly gratifying to me."

The Chair said:

"Are there any further remarks on the nomination of Mr. Hetzel?"

Mr. Garland moved

That the nomination close.

Which motion prevailed.

The Clerk was instructed to call the roll on the election of Mr. Hetzel.

And the roll being called, the result of the voting was as follows:

For Charles H. Hetzel:

Messrs.

Dillinger

Goehring (Pres't)

Garland

Rauh

Hon. Jos. G. Armstrong, Mayor.

When the name of Mr. Rauh was called, he arose and said:

"Mr. President and Gentlemen:—So many false statements have been published during the past week concerning my having attended a conference on last Tuesday evening on the proposed election to fill the vacancy in Council, in the interests of Mr. Hetzel, that I deem it fit and proper in justice to the people of Pittsburgh who so handsomely showed their confidence in me at the last election, and in justice to myself as well, to express the truth concerning my supposed attendance at this conference.

"I desire to state that on that (Tuesday) evening I was in attendance in a Jewish house of worship, our eve of the Day of Atonement, and after the services there, at 10 o'clock, left directly for my home.

"The falsity of this published statement is on a par with many others of a like nature that have appeared in print against me.

"In voting for Mr. Hetzel I feel that I am serving the highest interests of the taxpayers of this City, since I am helping to vote into this vacancy an honest and capable man, and one who, therefore, can be expected to serve the people in the highest degree. I do not know, nor do I care in municipal affairs, whether Mr. Hetzel is a Republican, Progressive or Democrat. My support is to the man, and his well-known and acknowledged character and ability."

And Charles H. Hetzel received five votes.

And Charles H. Hetzel having received the unanimous votes of all the members of Council present, in conjunction with the Mayor, was duly elected a member thereof in accordance with the provisions of an Act of Assembly, approved May 31, 1911, vice William A. Hoeveler, deceased.

Mr. Garland arose and said:

"Mr. President and Gentlemen:—Unlike others, I have refrained from rushing into print on the matter of this election.

"I now desire to join with Mr. Rauh and say to the citizens of Pittsburgh that I attended no meeting whatever on the Tuesday evening so often referred to, and I will further state most emphatically that I attended no conference or caucus at which Mr. Hetzel's name was agreed to.

"Mr. Hetzel is a man of the highest standing in the community. This fact cannot be disputed by those who are opposing his election, and it was with pleasure that I gave him my vote.

"I feel that it is an act of bad citizenship, as well as an unbusiness-like representation of the people, to attempt to delay the prosecution of the city's business, which, under our oath of office, we should faithfully carry on with as much dispatch as possible."

And the Chair appointed a committee of two, consisting of Messrs. Dillinger and Rauh, to escort the member-elect to the Council Chamber.

The committee having retired, returned and introduced Mr. Charles H. Hetzel.

And Mr. Hetzel took and subscribed to the oath of office, which was administered to him by President Goehring.

Mr. Hetzel arose and said:

"Mr. President, Your Honor the Mayor, and Gentlemen of Council:—You have my heartfelt thanks for the honor you have conferred in electing me to your body, as I consider it one of the greatest honors that could be bestowed upon any man in the City of Pittsburgh. I assure you, in assuming the office, that I will try honestly, and to the best of my ability, do the best for the people of Pittsburgh and the Greater Pittsburgh at large.

"I do not wish to make a speech. I never could. However, I want to thank the newspaper men for their criticism. I believe they have treated me fair. As 'Charley' Hetzel has had a character before and been in Council before, and, with your permission, Mr. President, I want to say a few words. I was elected to the Common Council from the North Side and filled one term. After that I was elected to the Select Branch on the North Side. After that I was elected the first Select Councilman from the new Twenty-third ward, North Side, to the Greater Pittsburgh and was a member of the 'famous' Finance Committee. I think the records are still in the books. In my private life I started out as a molder, I am a molder by trade, a sand pounder. I then occupied the position of messenger

and bookkeeper in the Second National Bank of Allegheny, and have risen until now I hold the position of vice president. I have spent 43 years of my life in one bank, and I think that is a record to be proud of.

"I again wish to thank you, one and all, for your courtesy and kindness."

Hon. Jos. G. Armstrong, Mayor, arose and said:

"Mr. President and Gentlemen:—I want to say a few words. I have been in office, I believe, since January, and I have the first time yet to ask Council to vote on any measure, either privately or in the Council Chamber. I want to say further that I have never called a conference of Council with the purpose of filling the vacancy caused by the death of William A. Hoeveler. Some members of Council have spoken to me about the matter in informal conversation, and different names have been mentioned relative to filling the vacancy; but neither in this nor any other office have I ever called a conference with any member of Council relative to this matter.

"Up to the present time I have never asked any member of Council, individually, to vote for any ordinance that was before that body. On one or two occasions I have personally appeared in Council in behalf of ordinances which I presented myself and for which I asked their collective support, and in one case did not receive.

"The Council is said to be composed of business men. The taxpayers of the City of Pittsburgh pay them their salaries the same as they pay mine. They were elected to the office they now hold by virtue of their ability, not only as business men, but also as students of municipal affairs. They are responsible, the same as I am, to the people who have elected them and who pay their salaries, as they do mine, to use their best judgment in all matters coming before them.

"Therefore, I want to say, as far as Mr. Hetzel is concerned, all that he has to do is to be Mr. Hetzel; keep himself just as Mr. Hetzel did in the old Council. And I want to say, with his business experience, his weight will be felt."

Mr. Hetzel arose and said:

"Mr. President and Gentlemen:—With your permission, I would like to make a little remark. I would like to say a little thing to put in your vest pocket. You will always find 'Charley' Hetzel an honest and square man to the die, as he has always been in his life. Further, politically speaking, I am a Republican; on the floor of Council I am a Councilman."

And there being no further business, the Chair declared

Council adjourned.

MAYOR'S OFFICE.

Pittsburgh, September 30, 1914.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:—

I have had presented to me this day by the City Clerk a resolution (Bill No. 1689) passed by your honorable body conferring upon me the honor of representing our city at the annual convention of the League of American Municipalities, to be held in Milwaukee, Wis., September 29, 30 and October 1 and 2. I take this opportunity to thank your body for this action, but would state at this time that, the convention having already convened and while I might yet go and have perhaps a day's time at the convention, the business of my office at present is so crowded that it would be practically impossible for me to get away, even if this action had been taken at an earlier date. Thanking you for your kind consideration in the matter, I am,

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

No. 1862.

Pittsburgh, Pa., October 6, 1914.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

Referring to Council Bill No. 1128, being a resolution requesting the Mayor to attend a conference at London, England, of all Mayors, Burgomasters, and other heads of municipalities throughout the world.

Reg to advise your honorable body that I have complied with your wishes, and on July 8, 1914, left Pittsburgh, sailing from New York for Europe on the steamship Adriatic. After visiting Cork, Dublin and a number of smaller cities in Ireland, and seeing nothing of importance which I thought would be an improvement to our city, I proceeded on to London.

The International Municipal Congress was held at the Anglo-American Exposition, Monday, July 20, 1914, and was called to order by Viscount Peel, chairman of the London County Council. Among the speakers welcoming the guests were the American Ambassador, the Earl of Kintore, Lord Rotherham, Hon. Sir John A. Cockburn, and Hon. D. C. Fletcher, United States Senator from Florida.

The subject taken up in the afternoon session was "Public Health Administration and Sanitation," addresses and papers being read by Dr. L. A. Fritzsche, of Minnesota; Dr. Priestley, Medical

Officer of Health for Lambeth, England; Miss Constance Cochrane, of the Housing and Sanitary Association, England, and others.

Tuesday—"Police, Prison and Administration of Justices;" "Protection from Fire;" "Relief of Poor;" "Hospitals and Orphanages;" "Asylums and Public Welfare."

Wednesday—"Education, Care of Children and Child Labor."

Thursday—"Municipal Trading;" "Supply of Electricity, Gas and Water;" and "Arrangements for Provision and Control of Traffic."

Friday—"Control of Building Operations and Destruction of Condemned Buildings and Housing;" "Rates, Taxes and Public Funds."

Saturday—Special discussions.

At the conclusion of the conference in London, I accompanied the representatives of the Commercial Congress to Paris. We had previously made arrangements for an audience with the prefect of police, and put in a day with him discussing their traffic regulations, social conditions, etc. A visit was also made to the filtration and garbage disposal plants, the party then departing for Lyons, France. However, I did not accompany them, inasmuch as my time was limited, being scheduled to sail from Cherbourg, France, on August 1 for home.

Shortly after the departure of the party comprising the Commercial Congress, while on a personal investigation at one of the various departments in Paris, I was very fortunate, upon arriving at my destination at the same time as that of the delegation which the city of Chicago had sent abroad on practically the same mission. Their party was composed of eight city Aldermen, including their City Clerk; Henry C. Barlow, Traffic Director, Chicago Association of Commerce; George E. Hooker, Civic Secretary of the City Club of Chicago; John D. Shoop, First Assistant Superintendent of Schools; Lewis E. Larson, Secretary of the Board of Education; Angus Roy Shannon, attorney for the Board of Education; Edward C. Carter, representative of steam railroads of Chicago, and John E. Wilkie, assistant to the president, Chicago surface lines. Accompanying the Chicago party, and acting as their counsel, were experts such as John F. Wallace, past president, American Society of Civil Engineers; Walter L. Fisher, former Secretary of the Interior; Blon J. Arnold, the well-known street railway expert; Edward H. Bennett, consulting architect; Lawrence E. McGann, Commissioner of Public Works of the City of Chicago, and John W. Beckwith, First Assistant Corporation Counsel.

I take the opportunity at this time to commend the city of Chicago on the length to which they went in order to gather the information which they thought would be of benefit to their city and to those handling municipal affairs in that city. It appealed to me very much to see their party of Aldermen, together with the talented engineers and

experts accompanying them from one European city to another, seeking information along practical lines; in other words, seeing the work done themselves, instead of appropriating large sums for the purpose of bringing experts to their city for the purpose of advising them how their governmental affairs should be conducted. I believe, as they do, that money is far more beneficially expended in this manner than by sitting around the table discussing our difficulties with experts from other cities who are unacquainted with our real conditions.

I would, therefore, suggest, while making up the Appropriation Budget for the next year, that an ample amount be placed in the Contingent Fund for Councilmanic expenses, should you deem it advisable to send committees of your honorable body, or delegations, to other cities, such as I described above was done by the city of Chicago.

Among a number of places which I visited with this organization, or party, was that of the Paris fire department. After going through their various buildings, we were finally conducted into a large open space or court, completely equipped with athletic apparatus. Upon the snapping of the fingers by their chief the men broke ranks instantly and formed into groups of twenty-five at the side or front of the different apparatus. They were then put through all manner of exercises, such as high and broad jumping; jumping from window sill to window sill on their finger ends; climbing the rope hand over hand for a distance of 100 feet, and other exercises too numerous to mention, but all very essential and useful in the development of the body, and which, in the judgment of their chief, as he explained, is the prime asset of a successful fireman, outside, of course, courage and bravery. To demonstrate the truth of this statement they then gave a mock fire fighting exhibition, and the manner in which these men climbed up and down a five-story building, through the smoke and flames, with bodies in their arms, wrung applause from every one present. I mention this instance for the reason that I thought what a few such open spaces, similarly equipped, would mean to our firemen. I do not for a moment mean to infer that the firemen of the City of Pittsburgh are not as strong, courageous and brave as those of Paris, yet, nevertheless, I believe if they had the advantages such as I have described above, their duties would be of a more pleasant nature and their muscles would not be allowed to become fat and flabby on account of lack of exercise. It is my firm belief that if the men were afforded athletic work in the open air, say twice a week, drilled by a competent teacher, every one of them would welcome the opportunity, and if Council views with favor upon the proposition, I think it would be money well and beneficially spent.

We also paid a visit to the police headquarters and were conducted through their various branches, and, before leav-

ing, a moving picture show was placed upon the canvas depicting the manner in which criminals are apprehended by the use of the Bertillon system.

I might add that, while in London, and during intermissions of the Municipal Congress, I attended sessions of the House of Parliament. Had quite a pleasant and interesting conference with the secretary of the chief inspector of the famous Scotland Yards, regarding the moral conditions existing at the present time in that wonderful city. Also paid a visit to the London County Council and had an extended interview with Sir Lawrence Gomme, clerk of the Council, and recognized as an authority, throughout England, on municipal government.

While, of course, there were quite a number of interesting features connected with large cities, such as London and Paris, I believe the most striking one, and that which impressed me most, was the respect in which the policemen are held. The slightest movement of his hand and he is obeyed, not only by the poor but by the rich, as well, and this accounts, in large measure, in my judgment, for the manner in which they so successfully handle their street traffic. Both of these cities cannot, in this respect, be too highly commended.

As the members of your honorable body as probably aware, the Greater City of London is made up of 29 small cities, such as the old City of London, the City of Westminster, etc., and each of these cities has its own Mayor and local body of Council, and provides by taxation for their improvements, which are of a local nature. However, improvements of a general character and beneficial to the Greater City of London are taken care of in the way of a tax levy, authorized by the London County Council, each city being taxed their pro rata share in accordance with the estimated cost of the improvement. From what I understand there does not appear to be any appeal from this general taxation for improvements affecting the Greater City of London.

In this respect, and to explain their system a little more clearly, I would say that it is similar to our School Board in the matter of levying taxes for school purposes. As your honorable body is aware, Council has no authority to interfere with their work, putting in the amount presented by the Board of Education deemed necessary to meet their school expenses.

I might also add that each of these smaller cities provides for its own water supply. Some have their own plants, while others purchase from private water companies.

It is surprising the manner in which the streets of London are kept; that is, with respect to cleanliness, and, after giving it some serious thought, I would attribute the same to the fact that they do not have very many iron-shod vehicles or horse-drawn conveyances, a very large percentage of the vehicles on the streets being motor-drawn, consequently, they do not have the horse

droppings to contend with, such as the City of Pittsburgh. In other words, there are not as many horse-drawn vehicles in the great city of London, with a population of between six and seven million people, as there are in Pittsburgh, only one-tenth the size. The thoroughfares of London are cleaned at night. Those in the residential districts being started at 19 o'clock P. M., while in the business district the work is started at 11 o'clock, so that all are in a cleanly condition with the awakening of early morning. It is very seldom that you see their street men in operation during the day. Personally, I believe their method a very good one, inasmuch as the men can do three or four times as much work, not being hindered by the interference which our white-wings are compelled to endure on account of the vehicles and street cars. In fact, on their important business thoroughfares it would be impossible to do their cleaning during the day.

The river fronts in both London and Paris are excellently protected by concrete or stone walls, which make them very easy to take care of and keep in a sanitary condition. After seeing the protection which the waterways in these great cities are given, I have come to the conclusion that it would be a very popular move for Council to look into the river conditions in cities, not only such as these, but also other cities throughout our country.

With respect to the lighting in London and Paris, would say that it is very good and it would be hard to improve upon.

Of course, we arrived in Europe at a time when everything was in turmoil over the war, and, as a result, we experienced a great deal of difficulty in finding some of the more important officials in their offices, being engaged in conference on subjects so very vitally affecting their future governments.

Respectfully submitted,
JOS. G. ARMSTRONG,
Mayor.

Which was read, received and filed, and a copy ordered sent to each member of Council.

MAYOR'S OFFICE.

Pittsburgh, Pa., October 5, 1914.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

I beg to submit herewith for your serious consideration my views on the ordinance pertaining to the granting of certain rights and privileges to the Postal Telegraph Company. This is the ordinance which was recalled, known as Bill No. 1295, Council File No. 712. I bring this matter before your honorable body in order that you may know my attitude with reference to the granting of such rights and privileges to public service corporations.

Taking up the Bill aforementioned in detail, I would respectfully make the following suggestions:

Page 3. In place of the present Section 3, I would substitute the following: "Section 3. That in no case shall the said company interfere with any of the gas or water pipes or sewers or any other structure that may be laid under the streets of the city, except in cases where it may be compelled to interfere with the house connections. In such cases of interference the said company shall protect such connections and replace them in good condition at their own cost."

Page 3. On line 20, after the word "electricity," I would add the following: "and an ordinance approved August 11, 1910, entitled, 'An Ordinance regulating the opening of the surface of streets, alleys and highways of the City of Pittsburgh by other than corporate authorities of said city requiring permits therefor to be taken out except by street passenger railway or traction companies, and fixing the charges therefor and for the permanent resurfacing of the streets to be done by the City of Pittsburgh; prescribing the conditions upon which the same will be granted and prescribing the punishment for violations of the provisions of this ordinance;' and any further ordinance or ordinances relating to the opening of the surface of streets, alleys and highways of the city."

Page 5. Section 6 does not meet with my approval, and I suggest that the following be substituted in its stead: "Section 6. Whenever any municipal or other public improvement or improvements shall be proposed or made upon or under any street or streets or any part thereof in which the company's cables or conduits are constructed, or when any repair work shall be done under or upon any such street or streets or part thereof, it shall be the duty of the company to maintain and protect its cables, conduits or other structures during the construction of such improvement or improvements or while said repair work is being done; and if the said conduits, cables or structures, or any part thereof, interfere with or materially inconvenience the construction of said improvement or improvements, after sixty (60) days' notice in writing from the Director of the Department of Public Works so to do, the company shall remove its said conduits, cables and other structures at its own cost to some other location upon the street or to other streets as designated by ordinance of Council."

The insertion of Section 7 at this point should be as follows: "Section 7. All underground cables and conduits or other structures laid and constructed under the authority of this ordinance shall be laid and constructed, and all work in connection therewith shall be done, at the company's expense, but under the direction, supervision and inspection of the Director of the Department of Public Works or his subordinate, and the company shall pay to the city a reasonable sum to cover the cost to the city of such

direction, supervision and inspection, which sum shall be fixed by ordinance of Council."

I would here insert Section 8, as follows: "Section 8. The privileges conferred by this ordinance are not assignable, either by operation of law or by act of the company, without the consent of Council and the Mayor; and in case a receiver be appointed for the company or proceeding in bankruptcy be instituted by or against it, or in case the company shall purchase or acquire any right or rights granted to any other person or corporation to lay and maintain telegraph conduits or cables in any street of the city or part thereof, then, upon the happening of any or either of the above stated events, all rights conferred by this ordinance shall thereupon immediately cease and determine, and the city may take possession of all conduits, cables and other structures laid under the authority of this ordinance."

Page 5. At the conclusion of the sentence on line No. 17, ending with the word "Pittsburgh," I would insert Section 9, as follows: "Section 9. In case the City of Pittsburgh shall, directly or indirectly, provide a system of underground conduits or pipe gallery in any street or streets of the city, the company, by its acceptance of this ordinance, agrees: First. If the conduits or pipe gallery provided for by the city in any streets or part thereof shall be properly designed and constructed, and adequate therefor, the company, immediately after the construction of said conduits or pipe gallery, shall place its cables, wires and other appliances in said conduits or pipe gallery so provided by the city and pay therefor a reasonable annual or quarterly charge. Second. In case the company's then existing underground conduits or part thereof in any street or streets interfere with any of the city's conduits or pipe galleries, the said company agrees to remove its own underground conduits at its own expense to some other part of said street or streets, or to adjacent streets, as may be authorized by Council of the City of Pittsburgh."

Page 5. Section 7. Instead of naming this Section 7, I would renumber it Section No. 10.

Page 5. Line 3, Section 7. At the conclusion of the sentence ending with the word "ordinance," I would insert a new section to be known as Section 11, as follows: "Section 11. As a compensation to the city for the use of the portion or portions of the streets as provided for in this ordinance, the company agrees to pay to the city annually two (2c) cents for each duct foot of conduit by it laid under and in the streets of the city under the authority of this ordinance; said rental to be due on the first day of of each year."

Page 5. Section 8. I would renumber this section and call it Section No. 12.

Page 6. Section 9. I would renumber this section and call it Section No. 13.

Page 6. Section 10. I would eliminate this section from the Bill, as it is a repetition of the immediately preceding section.

You can readily note the changes, substitutions and insertions by comparing my views, expressed in the foregoing, with the ordinance which you had already passed and recalled. I trust that I have made myself sufficiently clear on this subject, and feel that further comment is unnecessary.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

DEPARTMENT OF LAW.

Pittsburgh, October 5, 1914.

John M. Goehring, Esq.,
Council Chamber, City.

Dear Sir:

At the request of the Pittsburgh Athletic Company I have prepared the enclosed resolution. It is necessarily a difficult resolution to draw so as to present the situation, and yet, on the other hand, there seems to be some justice in the contention of the athletic company that they should be exonerated for the year 1913 license charge. The other association did not pay, for the reason that it failed last year and a new association was formed to operate the league this year, and there is, of course, no way of collecting the money from that organization this year. In addition to that, the Pittsburgh Athletic Company pays a very large amount of taxes as the owner of the premises and also large sums to the city for additional policemen.

Of course, the Law Department has no right to make this exoneration, and you will understand that this is prepared merely at the request of the athletic company and that no recommendation is made respecting the same, except to call your attention to the facts which have induced them to make this application.

Respectfully,
CHAS. K. ROBINSON.

No. 1865. Whereas, Owing to litigation to determine the validity of the ordinance commonly known as the Amusement License Ordinance, the Pittsburgh Athletic Company has not paid its license fee for the years 1913 and 1914, amounting to the sum of \$1,200.00 per year; and

Whereas, The city is now unable to collect for the year 1913 from the Federal League by reason of the fact that the company operating said league in 1913 has gone out of business and is insolvent, and it does not seem fair and equitable to compel one association to pay when its rival association must be permitted to go free for the year 1913; and

Whereas, In view of the amount of taxes paid by the Pittsburgh Athletic Company and amounts paid for extra policemen, it seems unreasonable to compel the company to pay the sum of \$2,400.00 this year for license fees; now, therefore, be it

Resolved, That the Pittsburgh Athletic Company be exonerated from the payment of the license charge for the year 1913.

Also

Bill No. 1781. An Ordinance entitled, "An Ordinance providing for the letting of a contract or contracts for enclosing Duquesne Market, Duquesne way, between the Sixth and Seventh street bridges."

In Public Works Committee, September 30, 1914. Ordered returned to Council with an affirmative recommendation, subject to report of sub-committee.

Which was read.

Mr. **Garland**, chairman of the sub-committee, arose and said:

"Mr. President and Gentlemen:—The three members of the sub-committee, together with the Director of the Department of Public Works, Mr. Swan, and the Superintendent of the Bureau of City Property, Mr. Townsend, visited the Duquesne Market on Saturday morning and, after carefully considering the matter, agreed that the expenditure should be made. With the consent of Messrs. Herron and Woodburn, the other members on the sub-committee, I would so report."

Mr. **Kerr** arose and said:

"Mr. President, I would like to ask the gentleman how many people visit that market, if he has any estimate?"

Mr. **Garland** arose and said:

"Mr. President, in answer to that, I would say that from what we could ascertain there are anywhere from 1,500 to 3,000 people who visit that market on certain days. While we were there at 2 minutes of 7 o'clock people were coming in automobiles, men and women with baskets, and it seemed to be crowded, and at 8 o'clock there was a large crowd of people there."

"I, personally, think it is very wise to expend the money."

"If we do not put the market house in condition for the coming winter the snow will drift into the market. We asked some of the people owning stands there if they would bring foodstuffs to the market in winter, and they stated that they would bring all those things which they could raise and produce then, including spare ribs. We also had with us Mr. Shreiner, a Pittsburgh attorney, who represents a number of stall holders. He had a petition in his pocket signed by about 300 people who visit the market; some of them very prominent Pittsburghers. The signers to this petition requested that the general improvements, such as contemplated by these ordinances, be made. We went into the matter thoroughly and agree with the Director of the Department of Public Works that the improvements should be made, and found out that the actual cost to do the heating work is figured on estimates prepared by McGinniss-Smith Company, and others, which is \$2,500.00."

"I would like you to hear from the other members of the committee."

Mr. **Herron** arose and said:

"Mr. President and Gentlemen:—I can substantiate what has been said by Mr. Garland. We must either go ahead and put the market in condition for operation in the winter or abandon it. To abandon it would be a bad mistake, because the farmers are using it quite liberally, and there are a few hucksters down there who have desirable stands. From what I saw and learned at this market on last Saturday morning, I believe that to make it a success we should enclose and heat it."

Mr. **Woodburn** arose and said:

"Mr. President and Gentlemen:—In addition to the remarks of the former speakers, I would like to say this, that the street was lined with automobiles; and, as I have been accustomed to noticing a number of automobiles in front of the Allegheny Market House, I must say that the turn-out at the Duquesne Market compares very favorably with the number at the Allegheny Market House. I would say, in addition to what has been said, and taking, perhaps, a future view of the proposition, that, while it is well patronized now on account of the conditions at the Diamond Market House, I want to impress upon this Council that the proposition will not be a lost one. I do not believe that the money spent for enclosing and heating this Duquesne Market will be foolishly spent. I also believe that the money spent there now will not be fully realized by the city until some future time. If it is enclosed and heated for future use, I could name a number of activities that could use it to a decided advantage; but it is hardly worth while naming them. However, I again say that I could assure you that at least a half dozen activities in Pittsburgh could use this property to great advantage to the city."

And the verbal report was accepted and approved.

And

MOTIONS AND RESOLUTIONS.

Mr. Rauh presented

No. 1874. Whereas: An Ordinance, No. 417, approved by the Mayor on November 28, 1913, entitled, "An Ordinance prohibiting the display of any advertising, either for business or political purposes, on city property, and imposing a penalty for the violation of the provisions of this ordinance," is now in force; therefore, be it

Resolved, That all persons in charge of property, which is owned or controlled by the City of Pittsburgh, shall be instructed by the different department heads to carry into effect at once the purpose of this ordinance, and that a copy of this resolution be sent to all departmental heads.

Which was read.

Mr. Rauh moved

The adoption of the resolution.

Mr. Herron arose and said:

"Mr. President.—Is there any necessity for this resolution? Has there been any violations? If not, and I were the Chief Executive of this city, I would take it as a reflection upon my integrity to carry out the laws of the city. If that ordinance is being violated, then I think it would be time for Council to call the Mayor's attention to it. However, as no evidence has been submitted that the ordinance has been or is being violated, I doubt the sincerity of this resolution."

And the question recurring on the adoption of the resolution.

Mr. Rauh demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.

Dillinger	Kerr
Garland	Rauh
Goehring (Pres't)	Woodburn

Noes—Messrs.

English Herron

When the name of Mr. Herron was called, he arose and said:

"Mr. President and Gentlemen:—I think the motive is wrong. I do not think there is any necessity or any reason why this resolution should pass, and, judging by what transpired in this room yesterday, I doubt its sincerity. I therefore vote No."

When the name of Mr. Kerr was called, he arose and said:

"Mr. President and Gentlemen:—Before I vote on the resolution I want to know something about it. I must confess now that I do not know anything about it. I, myself, do not see any necessity for it. However, I would like to know from the author of the resolution whether he has any evidence that the ordinance is being violated. I do not know why it is necessary to bring such a resolution as this into Council if the ordinance is not being violated."

Mr. **Rauh** arose and said:

"Mr. President and Gentlemen:—Why, I think the resolution explains itself. It is not necessary to go into detail. I introduced a similar resolution into Council under the Magee administration, and present this resolution under the present administration."

Mr. **Kerr** said:

"Mr. President, that does not answer my question. I asked the gentleman if he knew that the ordinance was being violated. Now, I would like to have a specific answer."

The **Chair** said:

"Gentlemen, this is not the time to discuss the matter. We are on the roll call, and I instruct the Clerk to proceed."

Mr. **Kerr** said:

"Mr. President, I want this information, so that I can conscientiously vote on the resolution."

Mr. **Rauh** said:

"Gentlemen, the ordinance is being violated."

Mr. **Kerr** said:

"Mr. President, then I vote Aye on the resolution."

Ayes—6.

Noes—2.

And a majority of the votes of Council being in the affirmative, the resolution was adopted.

Mr. **English** presented

No. 1875. Whereas, Saw Mill Run, which flows through the western part of the city, is a constant menace to the health of the people living in that neighborhood; and

Whereas, the City of Pittsburgh should take some action to remedy the condition referred to; therefore, be it

Resolved, That his Honor, the Mayor, be requested to call a conference with Pittsburgh Council and officials of the various boroughs and townships interested in the matter of control of Saw Mill Run.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 1876. Resolved, That the City Solicitor be and he is hereby requested to furnish to each member of Council a copy of the Viewers' proceedings in the matter of a hearing to adjust the values between the city and county relative to the Smithfield street City Hall property, the Warner farm and Fourth avenue and Grant street property.

Which was read.

Mr. **English** moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 1877. Resolved, That the following be incorporated in the Rules of Council, to be known as Rule XIII: "Any motion duly passed at any meeting of any standing committee of Council shall have the same effect as if the motion had been passed at a regular or special meeting of Council."

Which was read.

Mr. **English** arose and said:

"Mr. President and Gentlemen:—The object of this amendment is for the purpose of facilitating business in committees. As an illustration: A few months ago the Finance Committee passed a motion requesting the Law Department to furnish with each opinion on resolutions referred to them for payment of salaries to city employees for lost time on account of injuries received in the performance of their work a certificate from a city physician. The object of this was to have a complete record, showing that the city authorities had investigated the injuries at the time and the city physician had knowledge of it and was able to furnish a certificate that the claim was justified.

"The Law Department has not done this, and when the question was raised again in Finance Committee it was stated that the motion of the Finance Committee did not have any effect on the Law Department and that it should have been presented in regular session of the Council. It seems to me that in small matters such as this the questions could be handled much better in committee meeting rather than in Council meeting, as the Council meeting is more of a formal nature, the real work being done in committee. There is no desire on the part of the author of this amendment to in any way interfere with the Executive Department, as you are all aware, of course, that the duties of the Executive Department, as well as the legislative body, are distinctly defined, and one should not encroach upon the other.

"I believe that a little consideration of this amendment will convince the members of Council that it will be a help to us in committee work.

"I respectfully suggest that a copy of this proposed amendment and these remarks be furnished to each member of Council before the matter is voted on at the next meeting."

And, in accordance with the rules, the resolution was laid over for one week and the Clerk instructed to send a copy to each member of Council.

The **Chair** presented

No. 1878. Whereas, Postmaster General Burleson has extended the farm-to-the-table service of the parcel post to some twenty-seven cities throughout the United States, including Brooklyn, Philadelphia, Cleveland, Chicago and other cities. The purpose of said service being to bring the farmers and truck growers in territory contiguous to cities in touch with consumers in said city; and

Whereas, It is desirable that Pittsburgh should have the benefit of said service; now, therefore, be it

Resolved, That Postmaster General Burleson, through Postmaster Davis of the City of Pittsburgh, be requested to extend the farm-to-the-table service of the parcel post to this city.

Which was read.

Mr. English moved

The adoption of the resolution. Which motion prevailed.

Mr. English arose and said:

"Mr. President:—I rise to a question of personal privilege at this time. I assume that the record of yesterday's proceedings will be duly printed in the Councilmanic Record."

The Chair at this time said:

"The record of yesterday's meeting would be so recorded."

Mr. English arose and said:

"Mr. President:—This being the case, I believe I am entitled to have recorded in that Record my reasons for staying away from the meeting yesterday. In a recent issue of the Gazette-Times there appeared an article giving an account of a conference in the Mayor's office with certain members of Council and the Mayor being present. The particular statement to which I object is the following:

"Charles H. Hetzel, of 914 East Ohio street, banker, will be the new member of City Council. He will be elected Friday afternoon at a special meeting, to be called for this purpose, by President of Council John M. Goehring.

"This was decided upon at a conference last evening between Mayor Joseph G. Armstrong, Mr. Goehring and the following members of Council: G. A. Dillinger, Robert Garland and Enoch Raub.

"The decision of the Mayor and the members of Council who have been his supporters throughout was reached after it became evident that a conference with the other members of Council would lead to no agreement as to who was to take the seat made vacant by the death of William A. Hoeveler.

"It is not doubted that those members of Council who have generally been regarded as opponents of the present administration will vote for Mr. Hetzel, as it is understood he is a candidate who, although never mentioned in all the discussion as to the probable successor of Mr. Hoeveler, will be acceptable to both sides.

"The determination of the members of Council who, with the vote of the Mayor, constitute the majority in the election of a fellow-member, however, was without regard to what the opposition might or might not do. There will be no other name considered by them."

"I want to say at this time that I was ready and am now ready and shall always be ready to attend any conference or meeting in connection with the busi-

ness of Council, but that I do not propose to give up one iota of the rights and privileges to which I am entitled as a member of the Council. Dr. Woodburn will bear me out when I say that several days ago I told him that I have no objection to Mr. Hetzel as the man to fill the vacant place, but I have decided objections to any persons meeting without notice to me as a member of the Council and presume or assume to dictate what the Council shall do. What I object to is others doing the work in which I should have a share. I have not now any objections to Mr. Hetzel, but gladly welcome him as a member of the Council; but I do most sincerely object to the manner in which the actions were taken yesterday."

Mr. Garland arose and said:

"Mr. President:—I do not object to the putting of Mr. English's remarks in the Record, but I want it understood that I do not waive my rights as a Councilman to put in the Record statements of what the press says of me."

The Chair at this time announced the appointment of Mr. Hetzel on all standing and special committees, vice William A. Hoeveler, deceased.

Mr. Herron arose and said:

"Mr. President:—What is the right and orderly manner of filling a vacancy in Council? I would like to be properly informed as to what the correct method is."

The Chair arose and said:

"Mr. Herron, the Act of Assembly clearly defines the proper procedure."

Mr. Herron said:

"Then, was the procedure of yesterday in accordance with the Act of Assembly?"

The Chair said:

"I want to say right now that the election is a matter of past event and time, and I rule the gentleman out of order."

Mr. Herron said:

"Mr. President, I want to refresh your memory. You told me that when the time came for an election you would see that every member of Council was properly informed and consulted."

The Chair said:

"I call the gentleman to order. If there is no further business before the meeting, the meeting is adjourned."

Whereupon Mr. Herron arose and moved

That the following members be excused for absence from the following Council and committee meetings:

Mr. Garland on September 15, 1914.

Mr. Hoeveler on September 16, 1914.

Mr. Kerr on September 15 and 16, 1914.

Mr. Raub on September 15 and 30, 1914.

Which motion prevailed.

And there being no further business the Chair declared

Council adjourned.

BRICKLAYERS' INTERNATIONAL
UNION NO. 2 OF PENN-
SYLVANIA.

Pittsburgh, Pa., October 5, 1914.

Whereas, There appeared in the Pittsburgh Leader of Tuesday evening, September 29, 1914, an expression most uncomplimentary and unbecoming by one of the present members of our City Council of certain members who through their uprightness and cleanliness were elected by the people (and one of whom is a member in good standing in our organization and has been held in high esteem, his integrity never having been questioned), thereby trying to cast abroad the impression that no man from the ranks of labor is able or worthy to hold a position of trust and honor; therefore be it

Resolved, That we, the members of the Bricklayers, Masons and Plasterers, at a meeting held Friday evening, October 2, 1914, do condemn such an expression and conduct as misleading and contrary to the spirit of peace and good will and that of our country, where all men are supposed to be free and equal, and if Councilman Dillinger so expressed

himself as said of him, then he should be asked to retract the alleged expression or stand condemned before the citizens of the City.

Recording Secretary.

THE IRON CITY CENTRAL TRADES
COUNCIL.

Pittsburgh, Pa., October 6, 1914.

To the Pittsburgh City Council.

Gentlemen:

The attention of the Iron City Central Trades Council is called to statements attributed to Councilman Dillinger wherein he speaks derogatory of the toiling masses and is alleged to have said that he would not sit in the City Council with Councilmen who have risen from the ranks of the organized wage-earner.

We respectfully request that your honorable body ascertain whether or not Council Dillinger did make such statements. An early reply will be appreciated in order that the matter can receive the attention of the organized working people of the City of Pittsburgh.

This communication is sent to you under instructions from the Trades Council.

Very truly yours,
IRON CITY CENTRAL TRADES
COUNCIL.

PATTERN MAKERS' ASSOCIATION OF
PITTSBURGH AND VICINITY.

Pittsburgh, Pa., October 8, 1914.

Dear Sir:

At our last regular meeting the following resolution was presented and adopted unanimously:

Whereas, It is alleged that Dr. Dillinger, a member of the Council of the City of Pittsburgh, has spoken contemptuously and disrespectfully of two other members of said Council on account of the fact that said members had previous to their election to Council been workmen, and that he (Dr. Dillinger) could not or would not go into a conference wherein a bricklayer and a plumber would take part; and

Whereas, We deem such remarks an insult to a class that compose the best element of our citizenship and has made our city the leading industrial city of the world, and that we deem such remarks un-American and utterly unworthy of one supposed to be a representative of the people of a democracy where all are free and equal; therefore be it

Resolved, That the Pattern Makers' Association of Pittsburgh and Vicinity do declare that if Dr. Dillinger did make the remarks attributed to him, that in our opinion he is unfitted for the posi-

tion he holds, and in common decency should tender his resignation from a body that represents a citizenship composed of bricklayers, plumbers and all classes of working people.

Respectfully submitted,
S. R. THOMAS.

Which were severally read.

The Chair stated that as there were no objections the communications would be received and filed.

Mr. Dillinger arose and said:

"Mr. President—I would like to ask what the Council intends to do with these communications. It simply should not receive and file them. I presume that the people who sent those communications in would want some reply. I am sure I do. I want to know the wish of Council."

The Chair said:

"The wish of Council can be signified by a motion or resolution."

Mr. English arose and said:

"Mr. President—If I were Dr. Dillinger, I would stand up and say I did not make that statement if I did not make it; and if I did make it I would say so."

Mr. Garland arose and said:

"Does the gentleman accuse the doctor of making this alleged statement?"

Mr. English arose and said:

"Mr. President—I have made no such fool charges, have I, Mr. Chairman?"

The Chair said:

"I have not so understood you."

Mr. English said:

"Mr. President—I said if the gentleman had made the statements as attributed to him he should so say, and if not he should discredit them."

Mr. Dillinger arose and said:

"Mr. President and Gentlemen—The reason I did not want anything done with these communications was the fact that I thought Council might want to take some action, either by appointment of committee for investigation or the Council might want me to make some remarks. Personally, I want something done in the matter."

The Chair said:

"Gentlemen—You have the privilege of taking action by motion, and it is up to any member of Council to do that."

Mr. Garland moved

That the gentleman (Dr. G. A. Dillinger) accused make his answer now.

Mr. Garland arose and said:

"Mr. President—I would like to say that if the members of Council took notice of all these distortions and lying statements as appear in the public press

we would be getting nowhere. And if the statement, as alleged, was made in open Council or committee meeting surely there would have been some members of Council who would have heard it."

Mr. Herron arose and said:

"Mr. President and Gentlemen—Personally, I do not care whether the remarks were made or not, but I do not believe they were made. Therefore, I want to be frank in the matter.

"I am sorry to see these papers introduced, because I cannot see any good in it. Yet, at the same time, they are here, and it is no use for us compromising. We have to answer them one way or the other. But, personally, I would rather not have had them introduced in Council at this time."

And the question recurring on the motion, "That the gentleman accused make his answer now."

The motion prevailed.

The Chair said:

"Gentlemen—I want to say that, while my name appears on the back of these communications, I know nothing about them. I found them in my box, and I was in duty bound to present them to Council. Therefore, I do not wish to be put in the position that I want it said at some future time that I took pleasure in presenting them to this Council. I simply introduced them for what they may be worth. That is my explanation for having introduced them."

Mr. Dillinger arose and said:

"Mr. President and Gentlemen—I do not know that, as a member of Council, I would have to answer those communications one way or the other. I have never apologized for any vote cast in Council on any measure, nor have I ever apologized for any speech made in this Council Chamber or in public, because I have tried to study my actions. I have always tried to find out if I was right before I acted. When I am sure that I am right I will act whether it is right or wrong, and I feel no concern so long as my conscience is clear that I have done what I thought right. Therefore, I believe my actions or words need no apologies to anyone.

"I did not know the contents of these letters until I heard them read. I will say now on this occasion that I cannot answer anything further than to say most positively, absolutely, conscientiously and truthfully, I never made any such remarks as have been attributed to me and as have been published in the publication mentioned. I want to further say that any person who said that I made such a statement is a malicious prevaricator.

"I have been in the medical profession for the past 18 years, and I believe everyone of you knows that 50 per cent. of a doctor's work is charity among the working classes. I will say right here that I have always done all that came

within my power to help the workingmen. I have been a friend of labor, and my brother is a member of the Engineers' Society of Pittsburgh. I want to say, further, that I never have spoken an unkind word about any person, whether he belonged to a labor organization or not. I simply make a clean, positive denial of all that report. I cannot say any more than that. But I will say that the men who had these papers introduced into Council should have learned the truth before they acted.

"I want to say, further, that I have given this statement in all truthfulness and candidness and, if necessary, I am willing to give affidavit."

The Chair said:

"Gentlemen—You have heard the statement of the doctor. I think that should be satisfactory to every member of Council who knows the doctor."

UNFINISHED BUSINESS.

Bill No. 1877. Resolved, That the following be incorporated in the Rules of Council, to be known as Rule XIII: "Any motion duly passed at any meeting of any standing committee of Council shall have the same effect as if the motion had been passed at a regular or special meeting of Council."

In Council, October 6, 1914. Read and laid over for one week and copy to be sent to each member.

Which was read.

Mr. English moved

The adoption of the resolution

Mr. Garland arose and said:

"Mr. President and Gentlemen—Referring to last week's record of Council, I would ask that same be cleared as to a misstatement made by one of the gentlemen of Council. I am referring to remarks on Bill No. 1877, which was introduced last Tuesday.

"The statement was made that the Finance Committee passed a motion requesting the Law Department to do certain things.

"I beg to state that the Finance Committee did not pass any motion whatever bearing on the question, nor was any message sent to the Law Department.

"The criticism, therefore, of the Law Department as to having neglected to perform certain duties, as expressed in the record of last week, is uncalled for.

"I bring this up for the reason that statements such as these made should not be placed upon the records at random."

Mr. English arose and said:

"Mr. President and Gentlemen—It is very probable that I have made a mistake, but I want to assure the members of Council that if I have made a mistake, it was not done deliberately, and I do not want to be placed in the position as having criticized the Law Department.

"As explained to the members at the last meeting of Council, I believe by the adoption of this amendment it will facilitate the business of the committees. I hope the amendment will be adopted."

Mr. Herron arose and said:

"Mr. President—I want to state that I made a motion in the Committee on Finance requiring the City Physician to look into each case of damages for lost time by city employees on account of injuries received in the performance of their work; that the City Physician was to give the Council a certificate in each case. It is just as distinctly in my memory as though it happened today. The gentleman from Sheraden seconded the motion. There is absolutely nothing wrong with this amendment to the rule. The committee has more time, and it is there that we should thrash out most of our business."

Mr. Garland arose and said:

"Mr. President—The gentleman says the motion was passed in the Finance Committee. Who is clerk of this committee? Mr. Morrow. Who is assistant clerk? Mr. Weible. I have asked both these gentlemen, and, after a thorough investigation of their records, they say a motion of this kind was never made in the Finance Committee. I have looked into this matter and find that on Bill No. 816, presented by the Honorable President, on April 21, 1914, relating to cases where employees are injured in the performance of their duties that they are to report to their superintendent the nature of the injury, and the superintendent then to notify the City Physician, was referred to the Committee on Finance, and on April 22, 1914, a sub-committee, consisting of Messrs. Dillinger, Kerr and English, was appointed by the Committee on Finance to consider the matter. The members of the sub-committee should have received notice of their appointment. I took particular pains to secure this information, and therefore stand correct, instead of being corrected in this matter."

Mr. Herron arose and said:

"Mr. President—In a case of this kind, of course, the end justifies the means. It is absolutely wrong for my colleague to keep that information from us and allow us to go into the dark in regard to this matter. It is another question of doing things to suit himself. Now, the simple reason we lost track of that resolution is no reason why a member of Council, when he knows about it, should withhold it from our knowledge. He ought to have seen that the act of Council or Council committee should have been carried out and, instead of holding back the information, should have given it to the author of this amendment, who is trying to facilitate the business of Council."

Mr. Kerr arose and said:

"Mr. President—I do not think there should be any particular objection to this amendment, because the resolution

simply covers matters already set out in the Rules of Council. The Rules of Council govern the action of Council, and any rules that govern the action of Council will govern the action of the committees."

And the question recurring on the adoption of the resolution.

The motion prevailed by a two-thirds vote of the members of Council.

Mr. Garland moved

And the rule having been suspended, the resolution was read a second time.

Mr. English arose and said:

"Mr. President and Gentlemen—I cannot see my way clear to vote for the transfer of this money to the Contingent Fund. It seems to me that sufficient effort was not made to bring about an arrangement by the City of Pittsburgh and the various private water companies. For several years I have been interested in this subject, and the present Mayor, who was then Director of the Department of Public Works, was interested in some meetings with private water companies, and I was in one of those meetings, and it was plainly told to us that the water companies would not make any one-year agreement, as they insisted on a ten-year contract. This being the case, the only way to attack this problem was to go into court and under an order of the Court force the company to be reasonable, putting up a bond with this appropriation as the security.

"I am satisfied that when this appropriation was made those in authority knew that they could not make any one-year agreement with the water companies, but, regardless of the failure to bring about an agreement, I think it unfair and unjust to the taxpayers interested to deliberately transfer this money to the Contingent or any other fund. I hold that this appropriation is a sacred promise to 25,000 people, and it should be kept and the money not diverted to any other channel. The very fact that the \$50,000 appropriation to give battle to the traction company was not been touched, no prosecution being brought, and the attempt made to transfer this \$50,000 proves to me that a mistake was made, and when they could not get this \$50,000 they attacked the only other sum available, which was appropriated for the adjustment of water rates. This being the case, I am compelled to vote against this transfer."

Mr. Garland arose and said:

"Mr. President and Gentlemen—The matter the gentleman has just spoken about was brought up in the meeting of the Finance Committee last week, and every member knows that nothing can be done this year. Several meetings by the Director of the Department of Public Works and representatives of the Law Department were held with these water companies, and the representatives of the City could not bring these people to an agreement in this matter. And as the year is coming to a close, it is the idea, and the gentleman knows, that the Council put this money back into the Contingent Fund. He also knows that in another month the Council will again be appropriating an amount of money equal to this transfer, and perhaps more. We are not cheating anybody and we are not taking away any rights. It is not our fault that this money was not spent by getting these people to come to an agreement. However, it might have been the fault of City officials for not getting together on this matter."

Mr. **Rauh** arose and said:

"Mr. President and Gentlemen—I agree with what has just been said, and it is a disgrace that these arrangements could not be made this year. I would be willing to allow the City of Pittsburgh to pay the difference in the water rates so that people in any part of the city would not pay any more than the rest of the people of the city. I am in favor of this resolution, as this money can be put back into a special appropriation next year. Mr. President, I want it distinctly understood that by my voting for this resolution does not mean that nothing can be done in this matter. It is a shame and a disgrace that people in one part of the city should pay more for water than those of another part."

Mr. **English** arose and said:

"Mr. President—I just want to remind the members of Council that they appropriated \$50,000 for the purpose of bettering the traction system of the city, but up to this time not a single cent of that money has been used to bring a suit at law. As in the matter of water rates, if the Law Department had taken the matter into the courts I am sure that we could have had water furnished to the parts of the city now supplied by private water companies at the same rates as charged consumers by the City. That is the entire question which should enter into this discussion."

Mr. **Kerr** arose and said:

MAYOR'S OFFICE

Pittsburgh, October 17, 1914.

Hon. J. M. Goehring,
President of City Council,
City of Pittsburgh.

Dear Sir:

Referring to Council Bill 1828, being a resolution requesting the Mayor to have the Director of the Department of Public Works furnish Council as soon as possible with an estimate of the cost of widening the roadway of Wylie avenue, between Tunnel and Elm streets, by taking 10 inches from the southerly sidewalk, beg to advise that I have had this subject up with our Department of Public Works, and for your information enclose you herewith copy of their report regarding same, which I trust contains all the information desired.

Yours very truly,

JOS. G. ARMSTRONG,

Mayor.

DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, October 15, 1914.

Hon. Joseph G. Armstrong,
Mayor.

Dear Sir:

In accordance with your letter of September 30, 1914, relative to Bill No. 1828, being a resolution requesting the Mayor to have the Director of the Department of Public Works furnish to Council, as soon as possible, an estimate of the cost of widening the roadway of Wylie avenue, between Tunnel and Elm streets, I send you herewith report of Mr. N. S. Sprague, Superintendent of the Bureau of Engineering, upon the same, together with the letter from City Clerk Martin to you.

Yours very truly,

ROBT. SWAN,

Director.

Pittsburgh, October 13, 1914.

Mr. Robert Swan, Director,
Department of Public Works,
City of Pittsburgh.

Dear Sir:

Herewith is returned Council Bill No. 1828, which is a resolution requesting the estimated cost for widening the roadway of Wylie avenue, between Tunnel and Elm streets. There is also returned herewith letter from the Mayor transmitting the bill to the Department. Complying with your instructions in a letter of the 1st inst., I submit herewith a report on this proposition. The distance between Tunnel and Elm streets is 1,120 feet and has a roadway of 30 feet. The distance between the curb and the rail is 7.6 feet. The widening of the south side of the street 10 inches would require the repaving of this entire side in

order to make a finished job, and this repaving should be done anyway because of the present unsatisfactory condition of the paving. There are several vaults under the sidewalk, a number of which will have to be rebuilt due to the proposed widening, and I am advised that the City will have to pay the cost of this work, which is included in the estimate which follows:

1,170 sq. yds. old blockstone re-laid on conc. foundation, at \$1.75	\$2,047.50
1,000 lin. ft. protected conc. curb, at 90c	900.00
101 lin. ft. radius prot. conc. curb, at \$1.50	151.50
50 cu. yds. brick masonry, 9" wide, for vault walls, at \$4.00	200.00
3 catch basins, Class B, at \$100.00	300.00
For extra work and contingencies	201.00

Total estimated cost.....\$3,800.00

Yours very truly,

N. S. SPRAGUE,
Superintendent.

Which were read and referred to the Committee on Public Works.

Also

No. 1980. Petition for investigation of unsanitary conditions of Mr. Himmelstein's stable on Grand avenue, Twenty-seventh ward, North Side.

Which was read and referred to the Committee on Health and Sanitation.

Also

No. 1981. Resolution authorizing and empowering the City Solicitor to cancel or strike off the assessment for the construction of a sewer on Atherton avenue against the property of Mrs. Mollie W. Wilson in the sum of \$75.00, with interest from September 17, 1914.

Also

DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, October 13, 1914.

Hon. J. M. Goehring,

President of Council.

Dear Sir:

In relation to Bill No. 1829, the same being a resolution requesting the Director of the Department of Public Works to furnish Council, as soon as possible, an estimate of the cost of installing a modern lighting system on Carson street, between South Eighth and South Twenty-seventh streets, beg to advise that to light this district with a thoroughly modern system will take 130 inverted arc lamps, at a cost of \$7,475.00 per annum. The present 20 lamps would be abandoned, lessening the cost \$1,150.00 per year, making the net increased cost \$6,325.00 per year.

Yours very truly,

ROBT. SWAN,
Director.

Which were read and referred to the Committee on Finance.

Mr. Herron arose and said:

"Mr. Chairman and Gentlemen—Personally, I would like to have the Ordinance recommitted to the Committee on Public Safety for further consideration. I have reliable information that there is but one company in this country which manufactures the combination steam engine and tractor. What I desire to say is that when the Director of the Department of Public Safety and the Chief of the Bureau of Fire were before us on last Wednesday, they stated that there were seven manufacturers who made the combination steam fire engine and

tractor, but upon inquiry I find that there is but one, and for this reason I would like to have further information on the subject before I vote. Also I believe the Council should have something to say about the specifications for these fire engines. In regard to the roadster type automobiles for the Fire Chiefs, I believe they should be equipped with fire extinguishers, or painted red or some other color, so that the public would know that they were purely for the Fire Department. I think it would be a pretty good idea to have the Director and the Chief Engineer appear before us again and thrash this matter out. We could then arrive at something that would be satisfactory."

The Chair arose and said:

"Mr. Herron, in regard to the steam fire engines, are you prepared to furnish this Council information that there can be but one bidder on the specifications?"

Mr. Herron said:

"Mr. Chairman—I am in a position, so far as it applies to the six more or less second size fire engines with gasoline motor-propelled tractors. I am reliably informed that but one firm manufactures complete the fire engine with motor-propelled tractor. There are plenty of firms who manufacture and furnish fire engines, but receive the tractors from some other concern."

The Chair said:

"Will you furnish Council with that evidence?"

Mr. Herron said:

"Mr. Chairman—The evidence satisfies me of the above fact. It is from a reliable source."

The Chair said:

"Will you furnish this Council with the same evidence that satisfies you?"

Mr. Herron said:

"Absolutely; yes, sir."

Mr. Garland arose and said:

"Mr. Chairman—I am in favor of referring the Ordinance back to the committee, but I want to ask the gentleman if he is convinced there can be more than one bidder on the specifications for these fire engines will be put any further obstacles in the way of passing the Ordinance?"

Mr. Herron arose and said:

"Mr. Chairman—If I am convinced I will want no other proof."

Mr. Garland moved

That the bill be recommitted to the Committee on Public Safety.

Which motion prevailed.

Whereas, Pittsburgh has already instituted this particular activity, and the same met with considerable success last year; therefore be it

Resolved, That the said Christmas tree shall be of the largest procurable size easy for transportation; that the decorations shall consist of electric bulbs and such other ornaments and colored objects needed to give semblance to the Christian symbol, and that it shall be so elevated as to permit the construction

Which was read.

Mr. Garland moved

Which motion prevailed.

And the Chair appointed as members of said committee Messrs. Garland, Kerr and Hetzel.

The **Chair** at this time said:

"Gentlemen—The Mayor was here, but on account of a previous engagement had to leave. He informed me that he has not yet received the budget from the printer, but hopes to be able to advise the members of Council at their committee meeting on Wednesday when they may expect the printed copies."

Mr. **Rauh** arose to a question of personal privilege and said:

"Mr. President and Gentlemen—In the minutes of Council of October 6, just

laid before me, I notice that a member of Council has stated that a newspaper article of recent issue quotes that at a conference held by the Mayor and five members of Council I was credited with having been present in the interest of electing Mr. Charles H. Hotzel for the vacancy in Council. I desire most emphatically to state that I was not at such a secret conference alleged to have been held at night."

MAYOR'S OFFICE.

Pittsburgh, October 26, 1914.

To the President and
Members of Council,
City of Pittsburgh.

Gentlemen:

You, no doubt, recall the conference which was held in Council Chambers recently pertaining particularly to the collection of water rents throughout the city. Also you are aware, no doubt, that the statement was made that different institutions which your honorable body took off the free list by Ordinance of your last budget had not been served with proper notices for the payment of their rents in accordance with the Ordinance which was passed.

I have made a thorough investigation through the Treasurer's Department, which serves all notices on parties using water where the house or institution is not metered—in other words, a flat rate. The Treasurer informs me and furnishes me with a list of all institutions and notices that have been served upon them. That is, upon those who become delinquent. Notice is served upon no person before the tax becomes delinquent, unless they request a statement, which they receive.

The Department of Water Assessors, which attends to serving notice on institutions having meters, has also made a report. The head of that Bureau furnished me with a list showing that notices have been served upon all institutions mentioned in your Ordinance.

For your information I am giving you the facts in order that you may be acquainted with the conditions and know that these matters had been attended to and had not been allowed to go delinquent, as I myself thought might have been the case, after our conference adjourned. For your further information I would state that I had a meeting of the Law Department and have notified them to immediately prepare cases to be brought into Court to compel the carrying out of your Ordinances in levying these assessments. This action will be started immediately.

Yours very truly,

JOS. G. ARMSTRONG,

Mayor.

Herron English

When the name of Mr. English was called, he arose and said:

"Mr. President and Gentlemen—I am opposed to this motion to indefinitely postpone this bank depository ordinance which would require security for City funds. Last year the matter was permitted to drag along until it was too late to put it into effect for the year 1914. Now, it is proposed to kill it for next year by a motion which will prevent consideration until 1917, as the Ordinance cannot be taken up under the rules until the next Council, which begins January, 1916. In the meantime another contract for the year 1916 will have to be made in 1915.

"I do not see how the City Council can reconcile its policy of not requiring security in the face of the policy of the Board of Education and the County Commissioners, who do not have any trouble getting security for the taxpayers' money.

"I submit that this is a question for the members of Council to determine without any advice from the bankers. Under my Ordinance the Council would take some of the money received as interest and purchase a surety bond. As the cost of such a surety bond is one-half of one per cent. for \$25,000.00, we could secure \$5,000,000.00 of the tax-

payers' money. If it is presumed that the banks are safe and sound and that a loss to the City is practically impossible, why is it that the present Ordinance requires the City to build up an insurance fund at the rate of \$50,000.00 a year? If there is so much confidence in the present plan of no security, what is the need of a City insurance fund? I think the fact that the Board of Education and the County Commissioners have been able to get security leaves this Council in a very doubtful position before the taxpayers of Pittsburgh.

"Remember that it is no hardship on the banks, as it is not proposed to tax them any more than the three per cent. they now pay, so that no excuse is possible for such unbusiness-like method.

"As I am opposed to any postponement of the Ordinance, I vote no."

When the name of Mr. Garland was called, he arose and said:

"Mr. President and Gentlemen—This Ordinance now before us was returned to Council with a negative recommendation on motion unanimously adopted by the Finance Committee at its meeting held last Wednesday, October 21. There was no comment made whatever when the matter was up in committee for consideration. Therefore, I vote yes."

When the name of Mr. Herron was called, he arose and said:

"Mr. President and Gentlemen—I am satisfied to postpone action on this Ordinance, but am not satisfied that the matter cannot be taken up again next year. Therefore, I will have to vote no."

When the name of Mr. Kerr was called, he arose and said:

"Mr. President and Gentlemen—I am not concerned as to whether this Ordinance, under the rules, can come up for consideration again by this Council or not. When the Ordinance now in force was framed and before it was finally passed there was more work put on it than on any other business that came before Council since I have been a member. The sub-committee which had the matter under consideration had many meetings and sought the opinion and advice of many bankers and business men before the Ordinance was finally presented to Council; and I am entirely satisfied with the depository Ordinance now in force. I have explicit confidence in the banks of Pittsburgh. I believe there has not been a bank failure in this city within the last forty years, which has not paid its depositors in full. And the idea of distributing the money throughout the city to all banks qualifying under the provisions of the Ordinance is, to my mind, a good one. Therefore, I think the matter should stand as it is now recorded, and want to be recorded as voting yes."

When the name of Mr. Rauh was called, he arose and said:

"Mr. President and Gentlemen—I vote yes, and I would like to ask that the

remarks of Dr. Kerr be recorded, as I thoroughly endorse every word he has said."

Mr. Herron arose and said:

"Mr. President, have you any idea of the amount of money that will be necessary to carry out the provisions of this Ordinance? We might just as well ascertain that now before final action is taken on the Ordinance. I therefore request that Mr. Charles A. Finley, Superintendent of the Bureau of Water, be asked to come before Council to advise us."

The Chair arose and said:

"The Clerk will please ask Mr. Finley to appear before Council."

Mr. Charles A. Finley, Superintendent of the Bureau of Water, appeared in Council Chamber.

Mr. Herron arose and said:

"Mr. Finley, I would like to know from you how much money will be required to purchase the water meters as proposed by the Ordinance now before Council?"

Mr. Finley said:

"Mr. Chairman and Gentlemen—I cannot give the exact figures, but the approximate amount is \$36,500.00 to purchase the water meters installed by private property owners under the provisions of the Ordinance now before Council."

Mr. English arose and said:

"Mr. Finley, how much money has already been expended for this purpose?"

Mr. Finley said:

"In answer to Mr. English's question, I would state that the Bureau has paid out \$28,000.00 for meters installed by private property owners."

Mr. Garland said:

"Mr. Finley, this Ordinance only takes care of the meters that have been installed by property owners and who have made request that they be reimbursed for the amount they expended in installing them."

Mr. Finley said:

"Mr. Chairman, that is the purpose of the present Ordinance, but there are names of property owners on our books who have installed their own meters, but have not made request to be reimbursed."

Mr. English said:

"Mr. Finley, then you are not going to pay any property owner for the meter installed by him unless he comes in and requests reimbursement?"

Mr. Herron said:

"Mr. Chairman and Gentlemen—I want to state that the Superintendent's answer satisfies me."

And the bill as read a second time was agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dillinger	Hetzel
Garland	Kerr
Goehring (Pres't)	Rauh
Herron	Woodburn

Noes—Mr. English.

When the name of Mr. English was called, he arose and said:

"Mr. President and Gentlemen—I regret that I cannot see my way clear to vote for this Ordinance. If this Ordinance provided that every property owner who installed a meter were to be reimbursed then I would favor it. But, Mr. President, I submit that any person who has had the benefit of a saving in water rent due to a meter should not now be paid for the meter unless every other person is so treated. This Ordinance will take care of a few persons who are smart enough to press a claim for the cost of a meter, while the hundreds of persons who do not know about it are not going to get the same treatment. My point is that we should not discriminate in favor of a few and neglect and overlook others just as worthy. Therefore, I vote No on this Ordinance."

Ayes—8.

Noes—1.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Dillinger presented from the Committee on Public Safety, with an affirmative recommendation,

Which was read.

Mr. Dillinger moved

That the bill be recommitted to the Committee on Public Safety.

Which motion prevailed.

Also

Bill No. 1428. An Ordinance entitled "An Ordinance authorizing and empowering the Mayor and the Director of

the Department of Supplies to advertise for proposals and to let a contract or contracts for the furnishing of certain fire apparatus for the Bureau of Fire, Department of Public Safety."

Which was read.

Mr. Dillinger moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. English arose and said:

"Mr. President and Gentlemen—I am decidedly in favor of motorizing the Fire Department, but from the information I have received I am positive that the plan as now outlined will not give the best results. When the money provided by this Ordinance is spent you will find that a number of outlying engine houses will still be using horse-drawn apparatus. We all agree that in the congested downtown district the horse-drawn vehicle is the best and that the motor apparatus is to be preferred for the outlying districts. My honest opinion is that we should purchase new, up-to-date horse-drawn steamers for the downtown district, and then purchase tractors for the steamers now in use downtown and place these in the outlying districts. I have no desire to quarrel with the management of the Fire Department, but I do think every member of Council should give some thought to this matter rather than accept the plans of the Fire Department as the last and final word in this or any other matter.

"In other smaller questions we have seen fit to call in the Board of Fire Underwriters, but in the present matter I do not recall any one having asked the Underwriters for any information, although we expect lower insurance rates as a result of this Ordinance.

"In this, as well as other matters, I propose to use my own judgment, and in voting on this Ordinance I want it distinctly understood that I am not opposed to motorizing the fire apparatus of the City, but being opposed to the plan of purchasing auto steam engines I am compelled to vote No on this Ordinance."

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Dillinger	Hetzel
Garland	Kerr
Goehring (Pres't)	Rauh
Herron	Woodburn

Noes—Mr. English.

Ayes—8.

Noes—1.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 1942. Resolution authorizing the issuing of a warrant in favor of Arthur Thompson for the sum of \$265.00, for 92 days' lost time, July 1 to September 30, 1914, inclusive, for injuries received October 18, 1913, while in the employ of the Bureau of Fire as a hoseman, and charging the same to Code Account No. 1163, Item "L," Lost Time, Bureau of Fire.

Which was read.

Mr. Dillinger moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dillinger	Herron
English	Hetzel
Garland	Kerr
Goehring (Pres't)	Rauh

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

The Chair presented
No. 2032.

MAYOR'S OFFICE.

Pittsburgh, October 26, 1914.

Hon. John M. Goehring,
President of Council,
Pittsburgh, Pa.

Dear Sir:

I herewith transmit the first section of the departmental estimates for the year 1915, which contains the estimate of the Department of Public Health, the Department of Charities, the Carnegie Library of North Side, and estimates of the several institutions supported in whole or in part by the municipality, in the form as presented for the action of Council.

There are three other sections now in the printers' hands and as soon as the same are delivered I will transmit them to Council.

I had the budget analyzed and find that there will be an increase, I might say, in round figures, to the extent of

\$600,000.00, representing a number of different items, schedules of which I enclose you. I feel that Council is looking at this budget from the same angle as myself: that is, that a great many of the taxpayers who will be compelled to meet these appropriations which have been suggested are, at this time, if in business, not as successful as they were a year ago, and especially the smaller property owners who are in the working class and owning their little homes are not getting the amount of work which they formerly enjoyed. That being the case, it will appear to you, as it does to me, that the utmost care should be taken before any extra burden is placed upon our taxpayers, and for that reason I have had the items, as mentioned above, brought out prominently before Council, under separate cover, in order that the members may be able to go over them when the heads of the various departments are before Council for explanation of the reasons why the same are requested.

Yours very truly,

JOS. G. ARMSTRONG,
Mayor.

Mr. Herron presented

No. 2034. Petition for the replacing of boardwalk on Fannel street. East End.

Which was read and referred to the Committee on Public Works.

Mr. Herron arose and said:

"Mr. President—For information, I would like to know whether stenographic notes of Council meetings are going to be recorded in the minutes."

The Chair arose and said:

"Gentlemen—Under motion made by Mr. Kerr and passed by Council, when remarks are reduced to writing and the member requests them to be made a part

of the minutes of Council they then become a part of the minutes without any further action."

Mr. Herron arose and said:

"Mr. President—I have no objection to keeping out of the Record the remarks made by members of Council, but to safeguard the members of Council it is my opinion that stenographic notes should be made, because no man knows what may turn up in Council. I also believe that a member of Council would have no protection for what he says unless stenographic notes are taken."

The Chair arose and said:

"I have already stated that when the remarks are reduced to writing and the writer requests that they be made a part of the Record they become a part of the Record without further action. That is in accordance with the motion adopted by Council."

Mr. Herron arose and said:

"How about the remarks that are not reduced to writing?"

The Chair said:

"They do not become a part of the Record."

Mr. Herron said:

"Mr. President—Then, in that case, I will introduce a resolution next week amending the motion made by Mr. Kerr and adopted by Council relative to having the remarks reduced to writing before they become a part of the minutes of Council."

And there being no further business, the Chair declared

Council adjourned.

DEPARTMENT OF CHARITIES.

Pittsburgh, October 27, 1914.

Mr. Robert Swan, Director,

Department of Public Works,

Pittsburgh, Pa.

Dear Sir:

In pursuance with your order we this day examined Mr. Henry J. Craney, of No. 1255 Lake street, North Side, and from him we received the following history:

He was working for the City in the capacity of laborer at the new asphalt plant, South avenue, North Side, when a bank caved in and injured his right leg. He was taken to the Allegheny General Hospital, where he remained until July 3; that he had a plaster paris cast on the right leg from toes up to the middle of the chest for a period of four weeks. Since his dismissal from the hospital he used crutches for four weeks, and after that used a cane until one week ago, when he discontinued its use. He claims to have been unable to perform his customary duties from the time of injury to date.

Dr. James Witherspoon, the surgeon who attended Mr. Craney at the Allegheny General Hospital, says that he treated him for a fracture of the right femur, and that at the time of his discharge he had a good union.

When the name of Mr. English was called, he arose and said:

"Mr. President and Gentlemen—I want to make a short statement to the effect that I would be opposed to this ordinance but for the fact that I understand from the City Controller that the city's finances will have to be re-arranged owing to the mistakes of past administrations in not providing sufficient appropriations to complete various improvements. I am opposed to measures of this kind, whether by bond or tax appropriation ordinances. I do not think it wise to make improvements indiscriminately without knowing as nearly as possible the cost of the improvement. As I said before, I would be inclined to vote against such a bond issue, but owing to the confusion now existing regarding the condition of the city's finances and as this will adjust matters on the urgent recommendation of the City Controller, I vote yes."

Ayes—9.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2091. An Ordinance entitled, "An Ordinance authorizing and directing an increase of the indebtedness

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. English arose and said:

Mr. English arose and said:

"Mr. President—I would like to know from the Director of the Department of Public Works, Mr. Swan, or have him make a statement that the cost of the item as proposed are based on estimates prepared by the engineers and are correct, to the best of their knowledge and belief. I mean approximate estimates, not absolute, that will cover the proposed improvements."

Director Swan, of the Department of Public Works, was given the privilege of the floor, and said:

"Mr. President and Gentlemen of Council—Estimates have been made on each of these items as proposed in the ordinances before you, and have been checked as to the number of cubic feet etc. Surveys have also been made. We have also estimated the property damages, which is based on the best judgment of the engineers of the department. The physical cost of the work has been estimated on bids received for similar work during the past three months. We have not completed the cost of improving Sawmill Run, because the whole course will not be improved. But the amount proposed, \$150,000, is what the department will expend on this improvement. Aside from that, every item has been estimated, and I believe they are fair and will cover the cost of the improvements. The stenographer is working on the list so that it can be submitted to the Controller."

Mr. English arose and said:

"Mr. Swan, do I understand that the cost of property damages is included in these items?"

Director Swan:

"They are. We have used our best judgment as to the amount of damages the city will have to pay, but the Board of Viewers has the final say in the amount of damages to be awarded."

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Goehring (Pres't)	Rauh

Ayes—9.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2092. An Ordinance entitled, "An Ordinance authorizing and directing an increase of the indebtedness of the City of Pittsburgh in the sum of eight hundred sixty-seven thousand dollars (\$867,000.00), and providing for the issue and sale of bonds of said city in said amount, to provide funds for the widening and improvement of Grant boulevard, and the widening and improvement of Amanda street, from Mt. Oliver street to Freeland street, and Freeland street, from Amanda street to South Eighteenth street, and the widening, straightening and improving of Chartiers avenue, from Corliss street to Sheridan station on the P., C. & St. L. Which was read a first time.

Also, with a negative recommendation,

Bill No. 2045. An Ordinance entitled, "An Ordinance transferring to the general credit of the City of Pittsburgh the moneys now on hand and hereafter secured in a certain fund known as the Guarantee of Deposit Fund, as provided for in an Ordinance passed October 2, 1912, entitled, 'An Ordinance designating depositories for the moneys of the City of Pittsburgh, to regulate the deposits therein, and providing for the payment of interest thereon.'"

Which was read.

Mr. Garland moved

That further action on the bill be indefinitely postponed.

Mr. English arose and said:

"Mr. President and Gentlemen—I am opposed to the indefinite postponement of this Ordinance. The plan intended by this Ordinance is to make use of the sum of \$50,000.00 per year, which is now being piled up as a security fund for bank deposits. Before entering into a statement of my position, I wish, as a matter of personal privilege, to have recorded the fact that a full and free discussion of this Ordinance was denied me in the Finance Committee. It seems to me that in an important matter such as this a full and free discussion should be desired rather than denied. If we are to stand on ceremony in committee meetings of this Council and observe the letter of the rules, as did the ancient Pharisees, rather than allow full and free discussion of the official business of the City of Pittsburgh, I, for one, must register my protest against such proceeding.

"I would remind all of you that the rule of two speeches on any subject was deemed a necessity under the old Councils, whose membership consisted of over 100 members and none of whom received any salary for acting as a Councilman. Their meetings were held at night, and it was manifestly impossible for every one of the entire membership of one hundred to talk three or four times on any one subject. But, I take it, in establishing the small Council of Nine, and

providing a salary sufficient to justify the members' attendance at Council and committee meetings, the public expects full and free discussion on any subject which is deemed of sufficient importance to be introduced into the official business of the City of Pittsburgh.

"In the few remarks which were made regarding this insurance fund, it was stated that the previous Council had passed the Ordinance after mature deliberation. As the present membership of the Council is composed of five former members and four new members, no doubt the same conclusion might be reached. The fact that there are four new members is one very good reason why there should be a discussion. It seems to me there are two horns to this dilemma, and that it is impossible to avoid taking either one of them.

"When I proposed that we provide a surety bond as a matter of security for city deposits it was stated that such a bond was unnecessary owing to the fact that bank failures had not cost the city anything in the past, and for that reason it was assumed that bank failures would not cost the city anything in the future. Consequently, the Council decided that security was unnecessary.

"Taking up that proposition and assuming that security is unnecessary in the one instance, why, then, is it necessary for the city to pile up an insurance fund of any kind?

"With the present method of allowing 64 banks to participate in the handling of the city's deposits, I am in thorough accord, and I do not think we should ask the banks for a higher rate of interest than they can afford. I do think, however, since it is the opinion of the Council that no surety is necessary, there is no reason, whether real or apparent, why the city should take away \$50,000.00 per year which could be used to better advantage for other purposes."

Mr. Garland arose and said:

"Mr. President and Gentlemen—I desire to say that the question of this bond depository ordinance was thoroughly discussed in committee, and particularly so when the ordinance now in effect was first considered. The Council took its first action after full conference with many representatives of national banks, state banks and trust companies of the city. These financial institutions express themselves as well satisfied with our action, inasmuch as under the provisions of the ordinance every banking institution in the City of Pittsburgh, no matter where located, gets its pro rata share of the city's deposits, and Council wisely carries its own insurance as to the safety of the funds."

Mr. Kerr arose and said:

"Mr. President and Gentlemen—I want to say a few words in regard to this ordinance. The remarks of the previous speaker places me in a contradictory position with reference to the surety fund for bank deposits of the City of

Pittsburgh. I did say that I had implicit confidence in the banks of Pittsburgh; that there had not been a bank failure within the last 40 years in which the depositors were not paid in full. I did not say, however, that it was not necessary to have a surety bond, because I think it is the part of wisdom to provide a surety bond for all deposits and, in fact, all activities of the city where there is any possible chance of the city losing money. But as there are only two companies engaged in that kind of business, and they have a practical monopoly in which they have fixed the rate so high, we considered it at that time excessive, and for that reason we set about to establish our own insurance. The plan as set out in the depository ordinance will not cost the city nearly so much money as the buying of a surety bond or bonds. Therefore, I think the scheme is an admirable one and will redound to the credit of the city."

And the question recurring on the motion to indefinitely postpone further action on the bill, Mr. **Garland** demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Dillinger	Hetzel
Garland	Kerr
Goehring (Pres't)	Rauh
Herron	Woodburn

Noes—Mr. English.

When the name of Mr. **Rauh** was called, he arose and said:

"Mr. President and Gentlemen—I vote yes, and would like to have my remarks recorded. It has been stated before that no ordinance before this Council has ever been threshed out more thoroughly than has this particular one, and it has been shown to be most advantageous to the people of the city."

Ayes—8.

Noes—1.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

The **Chair** at this time introduced Hon. James Francis Burke, who was given the privilege of the floor and invited the Council to act as vice presidents and sit on the stage at the lecture to be given by Madame Vanderbilt, wife of the Belgian Minister of State, for the benefit of the Belgian widows and orphans, in Memorial Hall, Monday evening, November 16, 1914.

Council, in view of President Wilson's request that the people of the United States should maintain a neutral position in relation to the European war, felt that no action as a body should be taken, and therefore, by consent, no action by Council was taken.

REPORTS OF SPECIAL COMMITTEES.

Mr. Woodburn presented from the special committee appointed to investigate and report on how much money was expended in fitting up the old West Penn Hospital for a temporary hospital for infectious diseases and for what said

money was expended, and what became of the material thus purchased after the City had abandoned the hospital,

No. 2161.

DEPARTMENT OF PUBLIC HEALTH.

Pittsburgh, September 23, 1914.

Dr. S. S. Woodburn,
Member of Council,
Pittsburgh, Pa.

Dear Sir:—

In response of the request of the City Clerk, I submit the following report concerning the disposal of material used at the West Penn Hospital during its occupancy as a temporary hospital for smallpox cases. The total amount appropriated at that time for the control of smallpox was \$55,000.00. The total amount expended was \$53,368.20. Of this amount \$28,460.30 was paid for salaries for doctors, nurses, quarantine guards and laborers; \$11,083.50 for vaccine virus; \$9,782.60 for groceries to quarantined houses and hospital supplies, leaving a balance of \$4,041.80 for equipment of hospital. An itemized list of equipment is enclosed. I also submit a report of the present Superintendent of the hospital regarding the disposal of the material used at the old West Penn Hospital. You will note that the first item was for plumbing material and work, as there was very little plumbing in the institution when it was reopened, and it was necessary to properly equip it. The first item included the installing of five closets and four stoves, together with the plumbing work. "The second item under "General Plumbing Work," done by Maurice S. Martin, includes seven cast iron enameled tanks, four bowls and seven closet seats. Of the closets received ten were returned and were used to replace old ones in use at the hospital. As it was thought best at that time, I am informed, to use the new equipment purchased, such as beds, mattresses, bed clothing, etc., for the permanent hospital and to send old equipment to the smallpox hospital, a number of old beds were therefore sent down to the West Penn Hospital, together with some of the older mattresses, bedding, etc. You will note from the Superintendent's report that the mattresses, bedding, clothing, etc., were burned, and the old beds, some of which were unserviceable, were no longer used, but were disposed of through the Department of Supplies.

Very truly yours,
J. F. EDWARDS,
Director.

MUNICIPAL HOSPITAL, DEPARTMENT OF PUBLIC HEALTH.

Pittsburgh, Pa., September 21, 1914.

Dr. R. G. Burns, Supt.,
Bureau of Infectious Diseases,
Department of Public Health.

Dear Sir:—

In reply to the communication from Dr. Edwards to your office of the 11th

inst. regarding disposal of material used at the old West Penn'a Hospital during the smallpox epidemic of 1912, I beg to submit the following:

Ten closets were received from the old West Penn. These were used to replace those in use at this hospital.

Eleven stoves are now at this hospital.

One portable bath tub at this hospital.

Rugs and carpets in use at this hospital.

One lot of stove pipe, one lot of pipe and fittings. Most of this was junked, the balance used at this institution.

One Rudd heater at this hospital and one junked.

One Thelma range junked.

Kitchen utensils, glassware, dishes,

etc., put in use at this institution.

Refrigerator, washing machines and tables were burned.

Bedding, beds and mattresses were sent from this institution to equip the old West Penn'a at the onset of the epidemic. At the close of the epidemic the bedding and mattresses were burned and the beds junked. The bedding and beds purchased were to replace those taken from this institution.

All wearing apparel, toweling, rubber goods, etc., were burned, as these articles could not be disinfected and used with safety.

Respectfully submitted,

BENJ. L. JONES,

Superintendent.

No. 2162.

DEPARTMENT OF CITY CONTROLLER.

Pittsburgh, November 10, 1914.

To the Council of the
City of Pittsburgh.

Gentlemen:—

It is with sincere regret that I announce the death of Mr. James Brown, Assistant Controller, who died this morning about 7 o'clock.

Under ordinary circumstances, the announcement of the death of Mr. Brown would not have been necessary, but occupying the position he did as the Controller of Allegheny City for thirty-six years, and because of his faithfulness in the discharge of the duties of the office, and for the reason that during all of his life his one aim was the promotion of the welfare of that city, and because of his prominence in public life, I deem it but right and proper that his death should thus be announced.

Respectfully,

E. S. MORROW,
City Controller.

Which was read, received and filed.

Mr. **Woodburn** presented

No. 2163. Resolved, That the City Clerk is hereby instructed to obtain and have sent to the residence of the late James Brown, Assistant City Controller, a suitable floral tribute.

Which was read.

Mr. **Woodburn** arose and said:

"I desire to say a few words on the death of James Brown. I was intimately acquainted with him when he was in office on the North Side. He was friendly to all and well liked by the people of his native city. His public service covered a period of some 40 years. He held the responsible position of Controller of the old City of Allegheny, and when Allegheny became a part of the Greater City

he was retained as Assistant Controller. This is worthy of some appreciation by the people of this City, and the only evidence of our affection is in the shape of this resolution."

The **Chair** arose and said:

"Gentlemen—I want to present my personal testimony in regard to James Brown. I intimately knew him for thirty years and when he was Controller of Allegheny, and afterwards when I was a member of Council in Allegheny City I became attached to him. I have always had the highest regard for him. His integrity was beyond suspicion.

"He started out when but a young man as a carpenter. He rose to the responsible position of Controller of Allegheny, and then Assistant Controller of Greater Pittsburgh. I take it that when you consider that millions of dollars have passed over his signature it is a matter of some moment. It appears that the least the Council can do is to offer this slight testimonial of his service to the City of Pittsburgh."

Mr. **Hetzel** arose and said:

"Mr. President and Gentlemen—I have known Mr. Brown all my life. I knew him when he was Controller of Allegheny. He was a man of sterling qualities, trustworthy and congenial. He was loved by his neighbors on the North Side. Personally, I sincerely sympathize with his family in their bereavement."

Mr. **Woodburn** moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Garland** presented

No. 2164. Resolution authorizing and directing the Mayor to enter into a lease for a term of one year with Charles C. Wager, agent for Margaret B. Dallett, for property situate on Carson street, used as a garden by the South Side Gardening and Beautifying Association, the consideration being the payment of the taxes levied on said property.

Which was read and referred to the Committee on Finance.

And there being no further business before the meeting, the Chair declared

Council adjourned.

Gentlemen:

In regard to Bill No. 1989, the same being a resolution requesting the department to prepare a plan and estimated cost for the building of an observatory on Grandview avenue upon the property which was condemned by the City, beg to enclose you herewith plan showing an observation platform 35 feet in length by 23 feet in width, with two concrete light posts, around the base of which are provided seats. The platform is to be built upon the foundations which are

now upon the property. The foundation is such that if it is desired to build a comfort station or cover the platform later it could be done.

However, at the present time I do not think any more than an observation platform is necessary, as it would only be used in good weather. The estimated cost of the platform is \$900.00.

Yours very truly,
ROBERT SWAN,
Director.

MAYOR'S OFFICE.

Pittsburgh, November 11, 1914.

To the President and
Members of City Council,
City of Pittsburgh.

Gentlemen:

I desire to call your attention to the status of the claim of the City of Pittsburgh against the Pittsburgh Railways

Company for the item of street cleaning for the years of 1913 and 1914 for your consideration and action, with the suggestion that it would seem advisable to have this matter taken up at a conference between the representatives of the Council and of the Law Department and representatives of the Pittsburgh Railways Company, same to have the approval of the Mayor.

It appears that commencing during the Guthrie administration the Pittsburgh Railways Company paid to the City of Pittsburgh the sum of \$75,000.00 a year on account of their obligation under their Ordinances to keep clean and repair the portion of the street within the tracks and one foot outside thereof. That after the termination of certain litigation respecting the claim of the City for street cleaning in the earlier years, an adjustment of the claim was reached with the railways company by which it was agreed that the amount to be paid to the City should be \$85,000.00 instead of \$75,000.00 a year, and a receipt in full was given for the years in question up to and including 1912. Since that time the Pittsburgh Railways Company has paid to the City on account the sum of \$75,000.00 a year, leaving the question of the exact amount due open for future adjustment.

Under these circumstances, I therefore suggest that this matter be taken up for adjustment and settlement.

Yours very truly,
JOS. G. ARMSTRONG,
Mayor.

Which was read.

DEPARTMENT OF PUBLIC WORKS.

Pittsburgh, November 24, 1914.

Mr. Robert Garland,
Chairman, Committee on Finance.

Dear Sir:

In relation to the rubbish disposal matter, beg to report as follows:

After investigating the matter it is apparent that a great portion of the excessive cost of rubbish disposal is in the long hauls, and further, that it is not a commercial success to separate the rubbish, as the far greater portion of the good material which is saleable is now taken by the Association for the Improvement of the Poor and other institutions, so that the cost of separation, I believe, would be in excess of any revenue. It is very much more costly to build a plant to provide for separation, and therefore I would recommend that the rubbish be burned without separation. This can be done in an odorless manner and with a comparatively inexpensive plant, both as to construction and operation.

As I stated before, the big item is the haul, and I send you herewith a plan showing eight (8) tentative locations,

five of which can be located on property now owned by the City or on property which can be leased for a small amount. The three others are on the South Side, and upon a little further investigation we may find some property owned by the City or which can be secured very cheaply.

Plant No. 1 is located adjacent to the Allegheny Asphalt Plant, and would be available for the lower half of Allegheny.

Plant No. 2 is located at the River Avenue Pumping Station, and is available for the upper half of Allegheny.

Plant No. 3 is located on property owned by the City between Fortieth and Forty-first streets, on the Allegheny river. This will take care of the entire Lawrenceville district.

Plant No. 4 is located at the Dallas Avenue Asphalt Plant.

Plant No. 5 is located in Hazelwood.

Plant No. 6 is located on the South Side, near the end of the Twenty-second Street Bridge.

Plant No. 7 is located on the South Side, near Warrington avenue.

Plant No. 8 is located in the West End.

In regard to Plants Nos. 1 and 4, namely, the ones in connection with our asphalt plants, we can furnish enough steam to operate both of these plants, the only gas then being needed being for the dryers. I estimate that the gas bill would be cut down at these two plants between \$5,000.00 and \$6,000.00 per year, which will more than pay the interest on the bonds for all the rubbish disposal plants.

The estimated cost of these plants is as follows:

Plant No. 1.....	\$16,000.00
Plant No. 2.....	10,000.00
Plant No. 3.....	12,000.00
Plant No. 4.....	16,000.00
Plant No. 5.....	7,000.00
Plant No. 6.....	14,000.00
Plant No. 7.....	7,000.00
Plant No. 8.....	6,000.00
Total.....	\$88,000.00

This total cost comes within the amount available for the purpose in the bond issue.

The total cost of operation of these plants is \$22,250.00 per year. The disposal of ashes and incombustible material would probably cost \$5,000.00, making the total cost \$27,250.00. The estimated revenue on account of gas at the asphalt plants is \$5,000.00, leaving the net cost of operation \$22,250.00 per year. The net cost of rubbish disposal for the entire City would then be less than 50 cents per ton at the plant.

These plants are intended to be large enough to take care of the rubbish in the City. If mercantile rubbish is intended the cost both as to construction and operation would be less than one-half the above.

Yours very truly,
ROBERT SWAN,
Director.

MAYOR'S OFFICE.

Pittsburgh, November 23, 1914.

To the President
and Members of Council,
City of Pittsburgh.

Gentlemen:

I transmit to you herewith a letter from the County Commissioners and a report from Mr. Robert Swan, Director, Department of Public Works, pertaining to the building of what will be known as the Woods Run Bridge. The letter from the Commissioners was not just as plain as I thought it should be, and after talking to Commissioner O'Neil over the telephone he assured me what would be expected, and that if the City would take care of the property interest the construction of the bridge and approaches to same would be a matter for the County.

I feel that the importance of this bridge at this point is such that Council should take the matter up, and, if it is possible, join hands with the Commissioners to the extent of what has been requested and take care of the property damages.

At this time I desire to call to your attention the catastrophe which occurred in this vicinity only a few years ago,

when some twenty-odd workmen were drowned in a small yacht while crossing from the South Side to Woods Run.

This same transportation system is still in vogue, and there is no other way of relieving it except by coming clear downtown and then going back.

Yours very truly,

JOS. G. ARMSTRONG,

Mayor.

No. 2279.

To the Council of the City.

Gentlemen—A taxpayer's bill has been filed against the City of Pittsburgh and the Mayor and myself as City Controller in the Court of Common Pleas of this County at No. 1348 January Term, 1915. The determination of this suit necessarily involves a number of legal questions entering into the question of the debt limit of the city. Prior to the submission to the people of the question of issuing bonds of the city for public improvements, and always upon issuing any bonds of the city, it is necessary that this office ascertain and set forth the indebtedness of the city for the purpose of showing whether or not the proposed indebtedness is within the limits prescribed by the Constitution and Acts of Assembly.

There are very few decisions on this subject, and from time to time in the past I have been compelled to rely upon the opinion of the counsel of the city in trying to ascertain what debts must be considered and what credits are to be deducted from such debts in ascertaining the true debt limit. The margin of the debt incurring capacity of the city without the assent of the electors upon certain lines of reasoning is exceedingly close while upon other lines there is quite a margin.

In the suit above referred to the City Law Department is taking certain legal positions with reference to these matters, with some of which I am in thorough accord and with others of which I am not. From the experience that I have had in my office and from the opinions that have been given to me from time to time I feel that I cannot join in an answer in the form that the Law Department desires to file and I am

very desirous of filing a separate answer of my own, setting forth my own views as to the debt situation, and, in order to do so, I desire special counsel for my department in this case. I am enclosing herewith a resolution authorizing the employment of such assistant counsel in accordance with the Act of Assembly relating thereto, and I respectfully request your honorable body to authorize such employment for the purpose of giving me the proper aid which I desire in this case.

Yours truly,

E. S. MORROW,

Also

No. 2280. Whereas, A taxpayer's bill has been brought by Charles A. Schuldice against the City of Pittsburgh, Joseph G. Armstrong, Mayor, and E. S. Morrow, Controller, in the Court of Common Pleas at No. 1348 January Term, 1915; and

Whereas, Said suit involves various important questions relating to the proper method of ascertaining the debt limit of the city and the City Controller is not in thorough accord with the answer which is to be filed by the Law Department of the city for the city and the Mayor; therefore, be it

Resolved, That assistant counsel be employed for the Department of the City Controller in the litigation above mentioned, to be selected and appointed in the manner provided in the Act of Assembly of March 7, 1901, P. Whereas, It has been found by experience advisable in the issuance and sale of bonds of the city, to retain the services of attorneys whose opinions are generally accepted by the purchasers of municipal securities, to advise and assist in the proceedings preliminary to the issuance of said bonds, and to render their opinion as to the validity thereof; now, therefore, be it

MOTIONS AND RESOLUTIONS.

Mr. English presented

No. 2385. Whereas, It was stated in a public meeting in the Brookline School House on Monday evening, December 14, by the President of the last Council of the Borough of Brookline, that no franchise for the laying of water pipe lines or contract to supply water had been made between the Brookline Borough officials and the South Pittsburgh Water Company; and

Whereas, If true, this would indicate that the South Pittsburgh Water Company has no legal authority or contract right to continue a service at rates higher than the City of Pittsburgh can furnish the same service; therefore be it

Resolved, That his Honor, the Mayor, be requested to have the City Solicitor investigate this matter and furnish a report at the earliest possible moment.

Which was read.

Resolved, further, That the said Director furnish Council with the number and names of all reinstatements in the Bureaus of Police and Fire during the year 1914.

Which was read.

Mr. Kerr moved

The adoption of the resolution.

Which motion prevailed.

The Chair stated

"Gentlemen—Explanatory of motion which follows I wish to make the following statement:

"As originally submitted to Council, by the department heads of the City government, the estimated expenditures for the year 1915 aggregated \$16,200,000.00. Through revisions and reductions this amount has been reduced to \$10,900,000.00.

The estimated revenues for the coming year amount to \$4,762,000.00, leaving a balance of \$7,485,000.00, or eleven and nine-tenth (11.9) mills, to be made up by taxation, as against \$4,794,000.00, or seven and four-tenths (7.4) mills, for 1914; and while Council has not completed its work of cutting down the estimates it is hardly possible that the millage of 1914 can be reached. The difference above noted is partly accounted for by failure of the City to realize on 1914 revenues, additional sinking fund and interest charges on bonded indebtedness, and the further fact that the expenditures for 1915 are for 12 months, as against 11 months in 1914.

While excessive salaries should be reduced and unnecessary positions eliminated, it is quite apparent that Council must seek further for the real cause of the increase in taxation which confronts the taxpayer. The City is growing in population and territory, and it needs no argument to prove that there must be a corresponding increase in cost of the municipal government, and it is equally obvious that unless this increased expenditure is accompanied by a corresponding increase in revenues there must necessarily result a higher millage. As a matter of fact, while our expenditures have been increasing from year to year our revenues have been decreasing—the estimated miscellaneous revenues other than for water for 1915 being \$3,163,000.00, as against \$3,526,000.00 in 1912, \$3,447,000.00 in 1913, and \$2,825,000.00 for the 11 months of 1914. Notwithstanding these facts, the City administration during the past few years, in answer to popular demand that there should be no increase in millage, has practically maintained the same City millage, to wit: 1910, 7.5 mills; 1911, 8.1 mills; 1912, 7.3 mills; 1913, 7.4 mills, and 1914, 7.4 mills.

"In view of the above it would seem important that Council, in addition to giving careful consideration to items of expenditures, should also give careful thought to securing increased revenues for the City. One of the principal sources of the City's revenue should be from the granting of franchises. At the present time corporations enjoying these rights pay into the City treasury an amount approximating \$150,000.00, a mere fraction of the amount that should be paid. Notwithstanding that these franchises were granted many years ago, it is not improbable for the City under its police powers through the Legislature to secure increased compensation for the valuable rights granted.

"An even more flagrant injustice to the taxpayer is the exemption from taxation of property owned by certain corporations. The last figures available as to the value of such exempt property are those for the year 1913, which shows the amount to be \$22,286,143.00. In addition to this, churches and educational institutions are exempt; and while there may be a difference of opinion as to the propriety of taxing the latter there should be no question regarding the taxing of property of public utilities.

"Under the existing law the increase in revenue derived from motor vehicles of all kinds goes to the State, and notwithstanding the wear and tear of these vehicles upon our City streets, and the large cost for the upkeep of the same, the City does not receive one dollar of revenue.

"It is submitted that this should be remedied by legislation that will provide that the City should share in the revenue derived from auto licenses.

"Under existing law the burden of taxation is upon the owner of real property, and is particularly felt by those who are so unfortunate to own unproductive property in the rural districts. The repeal of classification valuations added very much to their burdens, and they are now confronted with the questionable legislation which every three years will place one-tenth (1/10) of the value of buildings upon the land. The question of the repeal of this legislation should receive serious consideration.

"In view of the above I would respectfully submit that Council pass the following resolution, to wit:"

The Chair presented

No. 2387. Resolved, (1st) That the City Solicitor be requested to prepare a bill to be submitted to the Legislature which will provide for the taxation of all property owned by public utilities; (2nd) to prepare legislation which will provide for the compensation to the City for existing franchises; (3rd) to prepare a bill which will provide for compensation to the City from the owners of auto vehicles; and, further, be it

Resolved, That upon the completion of these bills and at the proper times that this Council as a body appear before the General Assembly in support of said proposed legislation.

When the name of Mr. English was called, he arose and said:

"Mr. President and Gentlemen—I want to be recorded as voting No on this Ordinance for the reason that I am opposed to it in view of the fact that the City was compelled to go out and borrow \$800,000.00, which would indicate to me that there was not sufficient money in the City treasury to take care of the improvement contemplated by this Ordinance. Consequently, I cannot see my way clear to vote to pay this money out of the City treasury at this time, since an admitted shortage of cash in the treasury now exists. Also, since this appropriation was made under date of February 4, 1914, 11 months have elapsed and during that entire time it was not found necessary to remodel this station house. I therefore cannot see the wisdom of repairing it at this late date. We should stop spending money for anything that is not absolutely necessary."

AN ORDINANCE—Ratifying and confirming the actions of the committee appointed by the Council of the City of Pittsburgh to confer with the County Commissioners of the County of Allegheny in reference to the erection and construction of a joint City and County building upon land to be owned in severalty by the City and County; the action of said committee in conjunction with the Mayor, and Director of the Department of Public Works, and the said Commissioners, in agreeing upon the location of said building and the acquisition of the site therefor; their action in agreeing to the method of selecting and adopting a plan therefor, and the choice of an architect, Cass Gilbert, to prepare and conduct a competitive program for the selection of such plan, and the selection of the architect to supervise the erection and construction of said building upon the plan adopted; and authorizing the Mayor and Director of the Department of Public Works to execute a joint contract, in conjunction with the County Commissioners, with Edward B. Lee, architect, of the City of Pittsburgh, to act as supervising architect for the said joint municipal building; and providing for the payment of the City's portion of the fees and expenses of said architect.

Whereas, Under a resolution of this Council a committee was heretofore appointed to confer, in conjunction with the Mayor and the Director of the Department of Public Works, with the County Commissioners of the County of Allegheny, for the purpose of agreeing upon the erection and construction of a joint City and County building; the location of the same; the acquisition of a site therefor; the adoption of plans; the selection of an architect, and other matters pertaining thereto; and

Whereas, Said conference and negotiations had, from time to time, led to an agreement and decision that said joint municipal building should be located on the square bounded by Ross, Diamond and Grant streets and Fourth avenue, in the City of Pittsburgh, and that the City should acquire a title in fee from the County to that half of the land in said square which lies south of a line beginning from a point on the eastern side of Grant street equidistant from Diamond street and Fourth avenue and running parallel to Diamond street to a point on Ross street; and

Whereas, Pursuant to the provisions of the Act of April 18, 1913, and of an Ordinance of this Council, approved the 8th day of May, 1913, the Mayor of the City of Pittsburgh entered into an agreement with the Commissioners of the County of Allegheny, under date of May 26, 1913, providing for the conveyance to the City

of Pittsburgh by the County of Allegheny of the above described property, the valuation thereof, the method of payment therefor, and other matters and things pertaining to said transaction; and

Whereas, Pursuant to the agreement and arrangement made between said corporate authorities respectively, including the committee of this Council, said architect prepared a program of competition for the selection of a plan and an architect for said joint municipal building for the City of Pittsburgh and County of Allegheny, and said program was submitted to, and adopted by the County Commissioners, the Mayor and Director of the Department of Public Works of the City of Pittsburgh, and the committee of this Council, and pursuant to the terms and conditions of said program fifteen architects were selected to compete for the plans and as architect for said building; and

Whereas, Said program was so proceeded with by said competitive method; that on the 19th day of January, 1914, the plan submitted by Edward B. Lee was accepted and adopted by the County Commissioners, the Mayor and Director of the Department of Public Works of the City of Pittsburgh and the committee of this Council, and said Edward B. Lee was chosen and selected as architect to supervise the erection and construction of said building, according to his said plan; now, therefore,

Section 2. That the Mayor and the Director of the Department of Public Works are hereby authorized to execute a joint contract with the Commissioners of Allegheny County for the employment of said Edward B. Lee as architect for the supervision and construction of said joint municipal building. That the compensation of said Edward B. Lee for said services as architect to be paid by the City of Pittsburgh shall be the one-half part of a sum equal to 6 per cent. on the cost of the work, and the one-half part of the amount of expenses necessarily incurred by him or his deputies by traveling in the discharge of their duties connected with said work, namely, the one-half of the following payments:

On the execution of the contract, the sum of \$5,000.00.

On the completion of the revised competitive design, one-fifth of the total estimated fee, less the said sum of \$5,000.00, and the further sum of \$10,000.00, heretofore paid as a prize for said design.

On the execution of any contract, 2 per cent. on the amount of the same. But if the letting of any contract be delayed for 90 calendar days after the completion and presentation of the drawings

and specifications for the same, then such payment shall be made to the architect computed upon the lowest bid received for such work; and in case no bids have been received such payment shall be made computed upon an estimate of the cost of said work based upon prevailing market prices; such estimate shall be made by such competent persons as the Commission shall select.

Upon the certificate for payment on any contract, duly certified by the architect and approved by the Commission, 2½ per cent. on the amount of same.

Whereas, The City desires to maintain, preserve, improve and increase the railroad shipping facilities at this terminal of the Pittsburgh and Western Railroad Company; and,

Whereas, It is desired by the parties hereto to determine and agree upon the portion of such work to be done by each of the said parties respectively and the portion of cost to be borne by each of said parties respectively; and,

Now, therefore, in consideration of the premises and of the mutual covenants and conditions hereinafter contained, it is hereby agreed by and between the parties hereto, as follows:

First. The Railroad Company shall at once, upon the execution and approval of this agreement, construct and pay for a retaining wall on the south building line of Isabella street, from Sandusky street to a point near Anderson street, as shown upon the General Plan; thence from the above named point near Anderson street south along the east line of the Pittsburgh and Western Railroad Company to the north line of River avenue to elevation 24.50 feet, City datum, and shall, at its own expense, in conjunction with said retaining wall, construct such piers, pedestals, footings, piles, or such other masonry as may be necessary to support its proposed freight station, all as shown on "Sketch No. 1," General Plan.

Second. The City shall construct and pay for all that portion of the retaining wall described in Paragraph "First," which is above elevation 24.50 feet, City datum, all as shown on "Sketch No. 1," General Plan.

All of this work, including the work to be done under Paragraph "First," shall be of size and dimensions shown upon the contract plan for the same, which plan, Accession No., is identified by the signature of the Director of the Department of Public Works.

Third. The Railroad Company shall construct and pay for the retaining wall south and east of the Railroad Company's property line on Anderson street as shown in yellow on the General Plan.

Fourth. The Railroad Company will build a new freight house fronting on Isabella street, between Sandusky street, Anderson street and River avenue, together with a viaduct and new passenger station, as shown on the General Plan, all of which work shall be paid for by the Railroad Company.

Fifth. The viaduct, to be built and paid for by the Railroad Company, shall be located as shown upon the General Plan and shall extend from Anderson street to Sandusky street, following the approximate present location of River avenue. Said viaduct shall be constructed so as to connect Sandusky street and Anderson street at their present established grades and as shown in plan and elevation upon the General Plan. Said viaduct shall have a roadway of thirty (30') feet in width and a sidewalk eight (8') feet in width on the southerly side, with suitable sidewalk and driveway connections or approaches to Anderson street and the Sandusky street bridge.

The County agrees that the viaduct to be so constructed between Anderson street and Sandusky street shall connect with the approaches to the Anderson street bridge and the Sandusky street bridge at the elevations and at the places shown upon the General Plan, and also that the steps leading to each of said bridges, as shown upon the General Plan, shall connect with and have entrances on to said bridges at the elevations and places shown on the General Plan. All of the cost of remodeling the railing or other parts of the bridges necessitated by these changes and all the cost of repairing and maintaining said steps shall be borne by the Railroad Company. The County further agrees to release, and does hereby release, all its rights in the land occupied by the tollhouse of the Ninth or Anderson street bridge, which is situate on the westerly side of the Allegheny or North side approach to said bridge and which is to be occupied by the viaduct to be constructed by the Railroad Company as aforesaid.

Sixth. The Railroad Company agrees to build, pay for and maintain two sets of steps, one connecting the sidewalk level of Bridge No. 4, Allegheny river, at Anderson street, and the other connecting the sidewalk level of Bridge No. 3, Allegheny river, at Sandusky street, with the proposed level of the railroad tracks and platform therefor, as shown on the General Plan. The connection of said stairways to the bridges to be made in accordance with a plan which shall be approved by the County Engineer, and

all work in connection with either bridge to be done under the direction of the said County Engineer.

Seventh. The passenger station to be built and paid for by the Railroad Company, shall connect with the viaduct sidewalk level and the platforms of the station shall be on approximately the same grade as the railroad main tracks, the two levels being connected by the two passenger station stairways, all as shown on the General Plan.

Eighth. The Railroad Company will build, and pay for, milk, baggage, express and passenger platforms, buildings for baggage, express and other purposes germane thereto, south of the viaduct, in the locations shown upon the General Plan.

Ninth. The Railroad Company shall, at its own expense, construct a floor over the space between the westerly line of its proposed building facing on Sandusky street and the present east abutment wall of the Sandusky street bridge, between the viaduct and Isabella street.

Tenth. The Railroad Company agrees, at its own expense, to remove the regulating station and appurtenances thereof, of the Allegheny Heating Company, from its present location to a new location east of the Anderson street bridge, as shown upon the General Plan.

Eleventh. The Railroad Company will, at its own expense, relocate and construct its tracks all as shown on the General Plan.

Twelfth. The Railroad Company shall construct the viaduct at its own expense and assume all maintenance and the cost thereof, it being understood and agreed that said viaduct shall be and remain the property of the Railroad Company.

The Railroad Company further agrees to grant to the City the free use of said viaduct at all times, so as to afford a passageway for all purposes between Sandusky and Anderson streets, subject, however, to the use of same by persons and vehicles for purpose of access to and from and the use of the freight house, passenger station and railroad facilities of the Railroad Company.

Thirteenth. The City will re-establish the grade of River avenue, between Sandusky and Anderson streets, under the viaduct, so as to afford a clear headroom under same of at least 16 feet, and preserve public access to the wharf and river. The Railroad Company agrees, at its own expense, to do the necessary excavation, grading, drainage, sewerage and relocation of water pipes and other pipes, lines, or conduits of the City of Pittsburgh, changed or altered by reason of said change of grade and paving of said avenue between points named, and the grading of the approach to Isabella street along Anderson street, subject to the approval of the Director of the Department of Public Works.

Fourteenth. The City will do all the work north and east of the retaining wall, including the filling in and paving of Isabella street and Anderson street, which work shall be done at the expense of the City.

Fifteenth. The City hereby agrees to the relocation of the regulating station and appurtenances thereof, of the Allegheny Heating Company from its present location to a new location, east of the Anderson street bridge, as shown upon the General Plan, it being hereby stipulated and agreed that this is not to be construed as the granting or conferring of any right or privilege upon the Allegheny Heating Company which it does not by law now possess in its present location, and that, so far as the change of location is concerned, it is merely a permission or license to effect a change of location without adding to, or conferring any additional rights, privileges or franchises whatsoever upon the Allegheny Heating Company.

Sixteenth. The City does hereby grant locations on the wharf for the proposed passenger station, baggage and express rooms and platforms, between the east side of Anderson street and the west side of Sandusky street, from handling passengers, baggage, express and milk, and other purposes germane thereto, and will permit the relocation of the tracks of the Railroad Company on the wharf, all as shown on the General Plan.

Eighteenth. The Railroad Company, at its own expense, shall furnish and place suitable poles for lighting purposes on said viaduct in places designated by the Director of the Department of Public Works. The City will light and police the viaduct.

The Railroad Company shall, at its own expense, construct and maintain a floor over the triangular space lying between the southerly wall of its freight station and the northerly side of the viaduct referred to above, and the wall on west side of Anderson street, all as shown on General Plan, for the purpose of vehicle and pedestrian traffic thereover between said freight station and said viaduct.

Nineteenth. All work relating to said wall, viaduct, work on the streets or wharf and laying of tracks on wharf and River avenue to be done by the Railroad Company, as herein provided, shall be done according to plans and specifications approved by the Director of the Department of Public Works.

Twentieth. The City may have the same rights and exercise the same powers over and upon said viaduct and to the same extent as it now or shall hereafter have and exercise over and upon its streets, except that the City shall not be under duty to maintain or keep in repair the said viaduct; however, no conduits, wires, cables or pipes shall be laid on or attached to said viaduct, nor shall the City exercise any rights or powers over and upon the same in such manner as to overload or interfere with

the convenient use of said viaduct and facilities of the Railroad Company by the Railroad Company and other parties desiring to use the same.

Twenty-first. It is agreed by the parties hereto that the sidewalk on Isabella street between Anderson street and Sandusky street shall be omitted on the south side thereof and that the street pavements shall extend to its south building line.

Twenty-second. The Railroad Company agrees to commence the actual physical work provided for herein within thirty days after the passage of this Ordinance and to complete the same, so far as the City is in any way concerned or affected by the work herein provided for, within four months after the passage of this Ordinance, and all the work provided for within three years after the passage of this Ordinance, and in case the said Railroad Company fails to commence the physical work provided for herein within thirty days, or to complete the same within three years as herein provided, either or both, then all of the rights and privileges herein conferred by virtue of this Ordinance shall cease and terminate, and all the rights herein conferred upon the said Railroad Company shall be forfeited.

Twenty-third. The Railroad Company hereby further agrees as a part consideration for the execution of this agreement that it will waive and release to the City all rights, claims, demands and rights of action for any damages that the Railroad Company has sustained or may sustain by reason of the change of grade of Isabella street, between Anderson street and Sandusky street, or the making of any of the improvements by the City of Pittsburgh mentioned or referred to in the proceedings of the Pittsburgh & Western Railroad Company vs. City of Pittsburgh, at No. 2015 January Term, 1914, Docket "C," in the Court of Common Pleas of Allegheny County, Pennsylvania, and the Railroad Company, by the execution of this contract, hereby settles and satisfies all claims whatsoever that it may have by virtue of said suit, and further agrees to satisfy the docket at the above number and term and pay the court costs thereof.

Twenty-fourth. All privileges to locate and relocate tracks, construct stations and other buildings and all other privileges granted to the Railroad Company by this agreement are granted subject to all the terms, stipulations and conditions contained in the Ordinance of the City of Allegheny approved December 26, 1877, under which Ordinance the privilege to locate tracks upon the wharf was originally granted to the Pittsburgh, New Castle & Lake Erie Railroad Company.

Twenty-fifth. The City shall and will at any time, and from time to time hereafter, enact any and all such Ordinances, if any; execute and deliver all such further instruments or assurances, if any, and do and perform all such other matters and things as shall be requisite and necessary to carry out this agreement according to its true intent and meaning.

Twenty-sixth. It is hereby further understood and agreed that it is the intent and purpose of this Ordinance and contract that the rights of the public to a reasonably free and proper access to the wharf between Anderson and Sandusky streets on the North Side shall, at all times, be maintained and preserved for both passenger and vehicular traffic, and that nothing herein contained shall be construed to abridge, interfere or prevent the free access thereof to the general public.

Twenty-seventh. It is hereby understood and agreed that neither the purpose nor intent, nor the obligation of this contract, if and when approved by the Public Service Commission of the Commonwealth of Pennsylvania, is such as to impair or in anywise affect the exercise by said Commission of any of the powers vested in it by the Public Service Law, approved July 26, 1913.

Witness the corporate seal of the City of Pittsburgh and the signatures of the Mayor and the Director of the Department of Public Works, together with the certificates of the City Controller and the approval of the City Solicitor, and also the corporate seal of the County of Allegheny and the signatures of the County Commissioners, and the corporate seal of the Pittsburgh and Western Railroad Company, duly attested by the signatures of its officers, the day and year above written.

AN ORDINANCE — Authorizing the Mayor and Director of the Department of Public Works to execute a contract of employment with James L. Stuart as consulting and supervising engineer for the joint county and municipal building, fixing his compensation and making appropriation therefor.

Whereas, The corporate authorities of the County of Allegheny and the City of Pittsburgh have decided to erect a joint county and municipal building on the square bounded by Grant street, Diamond street, Ross street and Fourth avenue, City of Pittsburgh; and

Whereas, In pursuance of said purpose, said authorities have contracted with Edward B. Whereas, In the proceedings before the Board of Viewers on the widening and change of grade on South Eighteenth street, an award was made by said board, assessing the abutting property of John H. Zeilman with \$100.00 benefits, and allowing him no damages; and

Whereas, The said award was made by said viewers under a mistake as to the effect on the Zeilman property by the change of grade. The said view of the premises and the hearing were both had before the actual work was completed, and said viewers, in considering said case, acted on the belief and assumption that said Zeilman property, after the improvement, would be on grade. When the work of grading, paving and curbing was done, the said property, in large part, was left several feet below grade, and being located at a sharp turn or angle in the street, the effect of this depression is, in heavy rains, to cause an overflow of this property, and the flooding of the basement of the building (which is a large hotel property) to a very damaging extent.

The said Board of Viewers has certified in writing, which is attached hereto, how this mistake occurred, by reason of haste, and other circumstances, and express a

wish that their error might be corrected by allowing compensation to Mrs. Zeilman, the owner of said property, who is a widow with a family of six minor children, and has no means of raising or making other necessary alterations in the property, to adjust it to this grade; therefore it is hereby

Resolved, That the Mayor be and he is hereby authorized and directed to issue, and the City Controller to countersign, a warrant in favor of widow and heirs of John H. Zeilman for the sum of \$2,000.00, in full payment and settlement, as compensation for the injury and damage to this property, by the improvement, and charge same to Appropriation No. 42, Contingent Fund.

Whereas, John Sturm, a resident of the Fifteenth ward, City of Pittsburgh, purchased a lot on Flowers avenue, some ten years ago, being lot No. 119, in the J. E. Glass Plan of Lots, for the sum of \$300.00, and thereafter erected a dwelling house thereon, for which purpose he was compelled to secure the money from a building and loan association. That the attorney for said association reported said lot free and clear of all encumbrances.

Petitioner and his family have lived on said property since its purchase and the erection of the house. In June, 1913, petitioner learned for the first time that the City had sold his property on M. L. D. No. 10, November, 1904, which lien covered lots Nos. 120, 121, 122, 123, 124 and 125 in said plan, as well as his lot, and was filed against the former owner for the paving and curbing of Flowers avenue. This lien, amounting to \$915.00, was on file at the time of said loan and was overlooked by the building and loan attorney, who made the title examination. This mistake prevented petitioner from having any knowledge of, or opportunity to pay his share of said lien, as would have been done had he been advised of its existence.

Wherefore, petitioner, showing that he and his wife are now aged people without means, to whom the loss of their home would be a calamity, and further showing that he has paid taxes to the City since the purchase of said property, believing it to be his own, prays your honorable body to grant him relief to the extent of allowing him to redeem and obtain a deed from the City for said

premises on the payment of the cost to the City of said Sheriff's sale, to wit, the sum of \$92.71, leaving the balance of said loss to the City as security for said municipal claim and interest thereon; now, therefore, be it

Resolved, That the Mayor is authorized to execute and deliver a deed to Antoinette Sturm for the above described lot No. 119 in the J. E. Glass Plan, on the payment of the sum of \$92.71, being costs of said Sheriff's sale to the City.

Whereas, On or about July 17, 1893, George W. Bierer, Jr., by deed of Samuel Watson's trustee, which deed is recorded in the Recorder's office of Allegheny County in Deed Book Volume 836, page 587, became seized and possessed, by virtue thereof, of lots Nos. 106, 107, 108, 109 and 110 in the "Revised Plan of Watson Place," which plan is recorded in the Recorder's office aforesaid in Plan Book 8, pages 238 and 239; said lots being situate in the Tenth ward of the City of Allegheny, County and State aforesaid, now the Twenty-sixth ward of the City of Pittsburgh, and being situate on the westerly side of East street in said ward, fronting 100 feet on said East street and extending back in a westerly direction 100 feet, more or less, to Shaft avenue (formerly Howard street); and

Whereas, On or about the 9th day of October, 1903, said George W. Bierer, Jr., executed and delivered to Charles Schafer his certain bond and mortgage in the sum of \$2,700.00, covering the said premises above described, which said mortgage is recorded in the Recorder's office aforesaid in Mortgage Book Volume 1111, page 597; and

Whereas, The said Charles Schafer has advanced or loaned to the said George W. Bierer, Jr., since the date of said mortgage, the further sum of about \$1,200.00, for which he has taken judgment notes of the said Bierer which have been entered in Allegheny County as liens against the said property, which said sum includes interest and costs of foreclosure proceedings; which, together with the aforesaid mortgage, aggregates a total sum of approximately \$3,900.00 advanced by the said Schafer upon the property in question; and

Whereas, The City of Allegheny, by reason of certain improvements made by it upon the said East street, has filed in the Prothonotary's office of Allegheny County certain liens against George W. Bierer, which said liens are as follows: East street, widening and damage by grade, amount to this date

Costs thereon at No. 168 February Term, 1900, C. P. No. 3...	\$703.56
East street, grading, paving and curbing, amount to this date...	61.85
Costs thereon at No. 579 November Term, 1903, C. P. No. 3...	826.73
Costs at No. 2 February Term, 1912	11.75
East street sewer, amount at this date	2.25
Costs at No. 51, May Term, 1900, C. P. No. 3	340.13
	15.75
	<u>\$1,962.02</u>

And Whereas, there is considerable doubt that the liens aforesaid are property liens against the property conveyed to George W. Bierer, Jr., by Samuel Watson's trustee above mentioned, for the reason that said liens are filed against lots Nos. 98 to 102, inclusive, Watson Land and Improvement Company, and give no reference to any record plan or definite location of lots; and

Whereas, Prior to the 6th day of November, 1911, the City of Allegheny, plaintiff at No. 168 February Term, 1900, aforesaid, issued a lev. fa. upon said judgment and on said date put up the said premises described in said lien at Sheriff's sale, and the same were bid in by the City of Pittsburgh for costs, the Sheriff's deed therefor dated September 21, 1912, being recorded in the Recorder's office aforesaid in Deed Book Volume 1744, page 499; and

Whereas, On account of the defect in the description of said premises before mentioned, there is considerable doubt that the title thus acquired by Sheriff's deed by the City of Pittsburgh is a good title to the premises conveyed to George W. Bierer, Jr., by Samuel Watson's trustee aforesaid; and

Whereas, Prior to April 7, 1913, Charles Schafer, the mortgagee of George W. Bierer, Jr., aforesaid, procured a judgment upon his said bond accompanying his mortgage, and issued a writ of fi. fa. thereon at No. 473 April Term, 1913, and on said date 74 feet 4 inches, comprising lots Nos. 106, 107, 108, and 14 feet 4 inches of lot No. 109, adjoining said lot No. 108, of the premises described in the said mortgage to Charles Schafer, was

put up at Sheriff's sale and on said date bid in for Sheriff's costs by the said Charles Schafer, his Sheriff's deed therefor being recorded in the Recorder's office aforesaid in Deed Book Volume 1777, page 186; and

Whereas, The said Charles Schafer is now in possession of the said premises so purchased at Sheriff's sale, by his tenant, and is and has been receiving the rents, issues and profits therefrom; and

Whereas, It is the desire of the said Charles Schafer, in order to make his title to said premises so purchased by him at Sheriff's sale, absolutely clear, and inasmuch as it is undoubted that the premises last aforesaid have been benefited by improvements made upon East street, for which no compensation has been made to either the City of Pittsburgh or the City of Allegheny; and

Whereas, The said Charles Schafer has made an offer in compromise of the claims of the City of Pittsburgh, hereinbefore recited, to pay the sum of one thousand dollars (\$1,000.00) in cash to the City of Pittsburgh, for which a quit-claim deed shall be made, executed and delivered by the said City of Pittsburgh to him, the said Charles Schafer, covering any and all right, title and interest which the said City of Pittsburgh may have obtained of, in or to 74 feet 4 inches of said property by virtue of the Sheriff's deed to the City of Pittsburgh, above recited; now, therefore, be it

Resolved, That a quit-claim deed for lots Nos. 98, 99, 100, and 14 feet 4 inches of lot No. 101, adjoining lot No. 100, in the "Watson Land and Improvement Company's Plan of Watson Place," Twenty-sixth ward, Pittsburgh, said plan being recorded in the Recorder's office aforesaid, in Plan Book Volume 15, page 52 et seq., be executed and delivered by the City of Pittsburgh to the said Charles Schafer, and the claims of the City of Pittsburgh, hereinbefore recited, be settled upon the payment by him of the sum of \$1,000.00 in cash.

Whereas, St. Luke's Lutheran Church is the owner of property situate on Federal street extension, North Side, Pittsburgh, upon which is constructed a church, which was erected in the fall of 1911; that at the time of the erection of said church said property was without sewer facilities and the congregation constructed a private sewer on Koerner avenue at a cost of \$250.00, which answers all the purposes of the said church. That some time in the year 1912 the City constructed a public sewer along Federal street extension in front of the church property, but said sewer

is not of sufficient depth to drain the church property. This fact was called to the attention of the Board of Viewers, and were informed by one of the members of said Board that they would examine into the said matter and that unless they received notice that they would not be assessed for the construction of the said sewer; that the church did not receive notice of any assessment, and that the first notice that the officials of said church received was a notice from the City Solicitor that said church property had been assessed \$217.60 because of construction of said sewer; therefore be it

Whereas, In Code Account No. 1806, Bureau of Construction, for the year 1913, \$11,500.00 was set aside and appropriated to pay the costs of repaving Brighton road, from Pennsylvania avenue to Columbus avenue; and

Whereas, A contract was awarded to Booth & Flinn, Ltd., for repaving said Brighton road, and after the work had been started Ordinance No. 293, Series 1913, was passed by Council and approved by the Mayor July 3, 1913, said Ordinance widening the roadway of Brighton road from 30 feet in width to 32 feet in width, requiring additional paving and extra work not included in the original contract; and
